Minutes State Board of Investment March 4, 2014

The State Board of Investment (SBI) met at 10:00 A.M. Tuesday, March 4, 2014 in Room 318, State Capitol, St. Paul, Minnesota. Governor Mark Dayton (via telephone), State Auditor Rebecca Otto, Secretary of State Mark Ritchie and Attorney General Lori Swanson were present. Ms. Swanson was the Chair for the meeting. The minutes of the December 11, 2013 meeting were approved.

Executive Director's Report

Mr. Perry, Executive Director, referred members to Tab A of the meeting materials, and he reported that the Combined Funds had outperformed its Composite Index over the ten year period ending December 31, 2013 (Combined Funds 8.1% vs. Composite 7.8%) and had provided a real rate of return over the latest 20 year period (Combined Funds 8.5% vs. CPI 2.3%).

Mr. Perry said that the Combined Funds' assets increased 5.4% for the quarter ending December 31, 2013 due to positive market performance. He said that the asset mix was rebalanced in January, and he stated that the Combined Funds outperformed its Composite Index for the quarter (Combined Funds 6.4% vs. Composite 5.9%), for the year (Combined Funds 20.2% vs. Composite 18.4%) and over longer periods.

Mr. Perry reported that the domestic stock manager group outperformed its target for the quarter (Domestic Stocks 10.2% vs. Domestic Equity Asset Class Target 10.1%) and for the year (Domestic Stock 35.1% vs. Domestic Equity Asset Class Target 33.6%). He said the international stock manager group outperformed its target for the quarter (International Stock 5.5% vs. International Equity Asset Class Target 4.8%) and for the year (International Stock 17.8% vs. International Equity Asset Class Target 15.3%). Mr. Perry stated that the bond segment outperformed its target for the quarter (Bonds 0.1% vs. Fixed Income Asset Class Target -0.1%) and for the year (Bonds -1.3% vs. Fixed Income Asset Class Target -2.0%). He stated that the alternative investments had a healthy return for the quarter (5.6% for the quarter and 15.8% for the year). He concluded his report with the comment that, as of December 31, 2013, the SBI was responsible for over \$73 billion in assets.

Mr. Perry referred members to Tab B of the meeting materials for an update on the budget and travel for the quarter. He stated that the Legislative Auditor has completed the financial audit of SBI operations and that members will receive a copy as soon as it is available. He noted that there was one minor written finding related to a rebalancing misclassification. He stated that the finding has been corrected. He stated that Tab B contains updated information on Sudan and Iran.

Mr. Perry stated that at the last meeting, the Board approved a motion to have staff pursue legislation to provide greater flexibility for the investment options in the Supplemental Investment Fund. Mr. Ritchie moved approval of the bill language and recommendation, as

stated in Tab B of the meeting materials, which reads: "The Investment Advisory Council concurs with Staff's recommendation that legislation be pursued which will enable greater flexibility to provide appropriate investment options through the Supplemental Investment Fund." The motion passed.

Mr. Perry stated that discussions continue with the Teachers Retirement Association (TRA) regarding language for a merger bill for Duluth and St. Paul that would allow both plans to invest in the Combined Funds whether they merged with TRA or not.

Mr. Perry stated that there has been some preliminary discussions regarding potential legislation which would offer small private employers and self-employed people the opportunity to participate in a retirement plan. He stated that the SBI has been named in the language to have the investment authority over this. There would be a separate program board that would be created to determine how it would be administered.

Mr. Perry stated that staff worked with the Office of Higher Education (OHE) on an RFP for the selection of a vendor to provide administrative, marketing and investment services for the State's College Savings Plan, an internal revenue code section 529 plan. He stated that three responses to the RFP were received and that staff from the SBI and OHE recommend to renew a new five year contract with TIAA-CREF. Mr. Ritchie moved approval of the recommendation, as stated in Tab B of the meeting materials, which reads: "Staff, in concurrence with the Commissioner of the Office of the Higher Education, recommends approval of a new five year contract with TIAA-CREF Tuition Financing Inc (TFI) to provide services for the Minnesota College Savings Plan." The motion passed.

Mr. Perry stated that staff is requesting a change to the Supplemental Investment Plan. The Income Share Account is a balanced plan with a 60% allocation to stocks, 35% to bonds and 5% cash. The stocks are managed by the Domestic Equity Pool and currently the bonds are managed internally by staff. The bond portfolio is approximately \$100 million dollars. In order to address management efficiencies and to provide a consistent approach, staff is recommending a transfer to external managers in the Bond Pool. Ms. Otto moved approval of the recommendation, as stated in Tab B of the meeting materials, which reads: "The Investment Advisory Council concurs with staff's recommendation to transfer management of the bond segment of the Income Share Account to the SBI Bond Pool." The motion passed.

Mr. Perry noted that there is currently no litigation involving the SBI.

Mr. Perry stated that John Griebenow and Debbie Griebenow were retiring from staff after 34 years of service. Mr. Perry also announced that LeaAnn Stagg was named Chief Operating Officer in anticipation of Jim Heidelberg's retirement. Ms. Swanson congratulated Ms. Stagg and expressed her appreciation and thanked the Griebenows for their long-time service to the State of Minnesota.

Mr. Bailey referred members to Tab C of the meeting material for updated information on the SBI's equity and fixed income managers and noted that there were no action items at this time. Mr. Bailey stated that there was a roundtable discussion on various private debt investment

strategies. The IAC recommended that staff continue to pursue various private debt investment strategies and bring back more information to the IAC at some future date.

Mr. Bailey stated during the quarter he had sent a survey to IAC members to get their feedback on the role of the IAC. He summarized the results stating that the IAC continues to view themselves as a provider of high level advice and consultation both to the Board and the SBI staff as it relates to broader policy issues.

Mr. Bailey referred members to Tab D of the meeting materials and briefly reviewed new investments with one existing resource manager (Energy & Minerals Group) and two existing private equity managers (Lexington Capital Partners, Strategic Partners). Mr. Ritchie moved approval of all three recommendations, as stated in Tab D of the meeting materials, which reads: "The Investment Advisory Council concurs with staff's recommendation that the SBI authorize the Executive Director, with assistance from the SBI's legal counsel, to negotiate and execute a commitment of up to \$200 million, or 20% of EMG III, whichever is less. Approval by the SBI of this potential commitment is not intended to be, and does not constitute in any way, a binding or legal agreement or impose any legal obligations on the State Board of Investment and neither the State of Minnesota, the Investment Advisory Council, the State Board of Investment nor its Executive Director have any liability for reliance by EMG upon this approval. Until the Executive Director on behalf of the SBI executes a formal agreement, further due diligence and negotiations may result in the imposition of additional terms and conditions on EMG or reduction or termination of the commitment.

The Investment Advisory Council concurs with staff's recommendation that the SBI authorize the Executive Director, with assistance from the SBI's legal counsel, to negotiate and execute a commitment of up to \$150 million, or 20% of LCP VIII, whichever is less. Approval by the SBI of this potential commitment is not intended to be, and does not constitute in any way, a binding or legal agreement or impose any legal obligations on the State Board of Investment and neither the State of Minnesota, the Investment Advisory Council, the State Board of Investment nor its Executive Director have any liability for reliance by Lexington upon this approval. Until the Executive Director on behalf of the SBI executes a formal agreement, further due diligence and negotiations may result in the imposition of additional terms and conditions on Lexington or reduction or termination of the commitment.

The Investment Advisory Council concurs with staff's recommendation that the SBI authorize the Executive Director, with assistance from the SBI's legal counsel, to negotiate and execute a commitment of up to \$150 million, or 20% of SP VI, whichever is less. Approval by the SBI of this potential commitment is not intended to be, and does not constitute in any way, a binding or legal agreement or impose any legal obligations on the State Board of Investment and neither the State of Minnesota, the Investment Advisory Council, the State Board of Investment nor its Executive Director have any liability for reliance by Strategic Partners upon this approval. Until the Executive Director on behalf of the SBI executes a formal agreement, further due diligence and negotiations may result in

the imposition of additional terms and conditions on Strategic Partners or reduction or termination of the commitment." The motion passed.

Mr. Bailey stated that there was an additional action item for Public Pension Capital (PPC Fund) to allow them flexibility to close on a minimum amount of \$400 million. Mr. Ritchie moved approval of the recommendation, as stated in Tab D of the meeting materials, which reads: "The Investment Advisory Council concurs with staff's recommendation that the SBI authorize the Executive Director, with assistance from the SBI's legal counsel, to negotiate and execute a commitment of up to \$100 million, or 20% of the PPC Fund, whichever is less. Additionally, the commitment is contingent on PPC obtaining at least \$400 million in signed and finalized commitments to the Fund from at least four (4) other investors in the Fund by June 30, 2014. Approval by the SBI of this potential commitment is not intended to be, and does not constitute in any way, a binding or legal agreement or impose any legal obligations on the State Board of Investment and neither the State of Minnesota, the Investment Advisory Council, the State Board of Investment nor its Executive Director have any liability for reliance by PPC upon this approval. Until the Executive Director on behalf of the SBI executes a formal agreement, further due diligence and negotiations may result in the imposition of additional terms and conditions on PPC or reduction or termination of the commitment." The motion passed.

Elena Modl, Alexa Grapentine and Sam Burrill-Bowen representing Minnesota Break the Bonds briefly addressed the Board regarding investments in Israel. Ms. Swanson thanked them for taking time to join the meeting.

The meeting adjourned at 10:25 a.m.

Respectfully submitted,

Mansco Perry III Executive Director

FINANCIAL MARKETS REVIEW

DOMESTIC STOCKS

The U.S. stock market, as measured by the Russell 3000 index, posted a 2.0% return for the first quarter of 2014. Markets advanced despite mixed economic data and the start of the Federal Reserve's program to scale back its quantitative easing. Steadily improving expectations for the U.S. economy provided support for the stock market during the quarter. Within the Russell 3000, Health Care was the best performing sector with a 5.8% return while Consumer Discretionary was the weakest with a -2.2% return for the quarter. Value stocks outperformed their growth counterparts during the quarter.

Performance of the Russell Style Indices for the quarter is shown below:

Large Growth	Russell 1000 Growth	1.1%
Large Value	Russell 1000 Value	3.0%
Small Growth	Russell 2000 Growth	0.5%
Small Value	Russell 2000 Value	1.8%

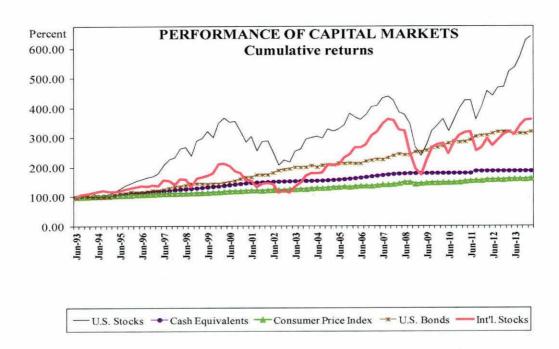

The Russell 3000 index returned 22.6% for the year ending March 31, 2014.

DOMESTIC BONDS

The U.S. bond market, as measured by the Barclays Capital U.S. Aggregate Bond Index, produced a total return of 1.8% for the quarter. Yields on most U.S. Treasuries declined during the quarter. The 2-year U.S. Treasury ended the first quarter higher by 4 basis points at 0.4%, the 5-year decreased by 2 basis points to 1.7%, the 10-year decreased by 31 basis points to 2.7%, and the 30-year decreased by 41 basis points to 3.6%. Investment grade corporate bonds outperformed the benchmark during the quarter, while all other sectors underperformed the broader benchmark.

The major sector returns for the Barclays Capital U.S. Aggregate Bond Index for the quarter were:

U.S. Treasury	1.3%
Agency	1.2
Corporates	2.9
Agency MBS	1.6
Commercial Mortgages	1.3
Asset-backed	0.5

FINANCIAL MARKETS REVIEW

INTERNATIONAL STOCKS

In aggregate, developed international stock markets (as measured by the MSCI World ex U.S. index net) provided a return of 0.7% for the quarter. The quarterly performance of the six largest stock markets is shown below:

Japan	-5.6%
United Kingdom	-0.8
Canada	1.6
France	2.9
Switzerland	4.7
Germany	-0.3

The World ex U.S. index returned 16.5% during the last year.

The World ex U.S. index is compiled by Morgan Stanley Capital International (MSCI) and is a measure of 22 markets located in Europe, Australasia, Far East, and Canada. The major markets listed above comprise about 74% of the value of the developed international markets in the index.

EMERGING MARKETS

Emerging markets (as measured by MSCI Emerging Markets Free index net) provided a return of -0.4% for the quarter. The quarterly performance of the six largest stock markets in the index is shown below:

China	-5.9%
Korea	-2.2
Taiwan	1.1
Brazil	2.8
South Africa	4.7
India	8.2

The Emerging Markets Free index returned -1.4% during the last year.

The Emerging Markets Free (EMF) index is compiled by MSCI and measures performance of 21 stock markets in Latin America, Asia, Africa and Eastern Europe. EMF includes only those securities foreign investors are allowed to hold. The markets listed above comprise about 72% of the value of the emerging international markets in the index.

REAL ESTATE

During the first quarter of 2014, real estate posted its 17th consecutive quarter of positive returns with the NCREIF Property Index posting a return of 2.7%. Real Estate markets have seen a healthy recovery since the 2008-2009 crash. Fundraising for private real estate funds continued at elevated levels seen over the last six quarters, logging \$24 billion in 1Q 2014 vs. \$30 billion in 4Q 2013 (source: Prequin).

PRIVATE EQUITY

The ongoing moderate economic recovery, combined with artificially low interest rates, continue to fuel investor demand for increasing private equity allocations. General Partners distributed capital back to Limited Partners at record levels in 2013, and so LPs are faced with finding appropriate ways to reinvest capital. This has driven a resurgence in private equity fundraising, reaching \$98 billion across a variety of strategies in 1Q 2014, down from \$161 billion in 4Q 2013, but in-line with quarterly fundraising activity since 2009. GPs have been relatively disciplined in their deal-making efforts. Buyout activity resumed its upward trajectory in 1Q 2014, reaching \$80 billion globally, after declining in successive quarters after reaching a post-crisis high of \$87 billion in 1Q 2013.

RESOURCE FUNDS

During the first quarter of 2014, crude oil traded between a range of \$91/bbl and \$104/bbl. The average price for the first quarter of 2014 was \$98/bbl, which is \$1 above the average price from the fourth quarter of 2013. Strong global energy demand and unrest in the Middle East should continue to provide strength to oil prices.

COMBINED FUNDS

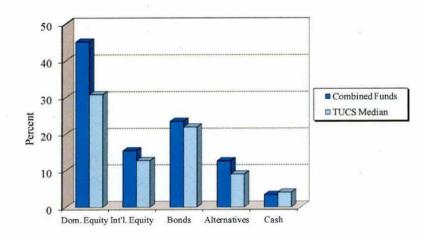

The comparison universe used by the SBI is the Trust Universe Comparison Service (TUCS). Only funds with assets over \$1 billion are included in the comparisons shown in this section.

Asset Mix Compared to Other Pension Funds

On 3/31/2014, the asset mix of the Combined Funds was:

	\$ Millions	%
Domestic Stocks	\$26,033	45.1%
International Stocks	8,907	15.4
Bonds	13,597	23.5
Alternative Assets	7,266	12.6
Unallocated Cash	1,953	3.4
Total	\$57,756	100.0%

Comparisons of the Combined Funds' asset mix to the median allocation to stocks, bonds and other assets of the public and corporate funds in TUCS over \$1 billion are shown below:

	Dom. Equity	Int'l Equity	Bonds	Alternatives	Cash
Combined Funds	45.1%	15.4%	23.5%	12.6%	3.4%
Median Allocation in TUCS*	30.8	12.7	21.9	9.0**	4.0

^{*} Public and corporate plans over \$1 billion.

^{**} May include assets other than alternatives.

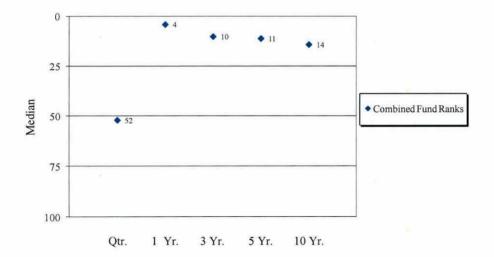

COMBINED FUNDS Performance Compared to Other Pension Funds

While the SBI is concerned with how its returns compare to other pension investors, universe comparisons should be used with great care. There are several reasons why such comparisons will provide an "apples to oranges" look at performance:

- Differing Allocations. Asset allocation will have a dominant effect on return. The allocation to stocks among the funds in TUCS typically ranges from 20-90%, a very wide range for meaningful comparison. In addition, it appears that many funds do not include alternative asset holdings in their reports to TUCS. This further distorts comparisons among funds.
- Differing Goals/Liabilities. Each pension fund structures its portfolio to meet its own liabilities and risk tolerance. This will result in different choices on asset mix. Since asset mix will largely determine investment results, a universe ranking is not relevant to a discussion of how well a plan sponsor is meeting its long-term liabilities.

With these considerations in mind, the performance of the Combined Funds compared to other public and corporate pension funds in Trust Universe Comparison Service (TUCS) are shown below.

The SBI's returns are ranked against public and corporate plans with over \$1 billion in assets. All funds in TUCS report their returns gross of fees.

	Period Ending 3/31/2014				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Combined Funds					
Percentile Rank in TUCS*	52nd	4th	10th	11th	14th

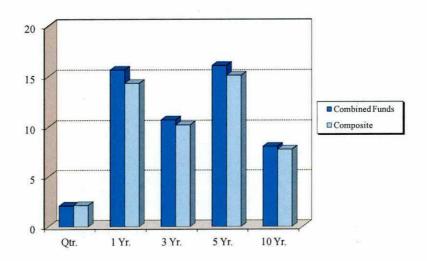

^{*} Compared to public and corporate plans greater than \$1 billion, gross of fees.

COMBINED FUNDS Performance Compared to Composite Index

The Combined Funds' performance is evaluated relative to a composite of market indices. The composite is weighted in a manner that reflects the asset allocation of the Combined Funds:

	Market Index	Combined Funds Composite* 1Q14
Domestic Stocks	Russell 3000	45.0%
Int'l. Stocks	MSCI ACWI Free ex-U.S.	15.0
Bonds	Barclays Capital Aggregate	25.4*
Alternative Investments	Alternative Investments	12.6*
Unallocated Cash	3 Month T-Bills	2.0
		100.0%

* Alternative asset and fixed income weights are reset in the composite at the start of each month to reflect the amount of unfunded commitments in alternative asset classes. The above Combined Funds Composite weighting was as of the beginning of the quarter.

Period Ending 3/31/2014

				Annualized	
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.

SUPPLEMENTAL INVESTMENT FUND

The Minnesota Supplemental Investment Fund is a multi-purpose investment program that offers a range of investment options to state and local public employees. The different participating groups use the Fund for a variety of purposes:

- It functions as the investment manager for all assets of the Unclassified Employees Retirement Plan, Public Employees Defined Contribution Plan, Hennepin County Supplemental Retirement Plan, and Health Care Savings Plan.
- It is one investment vehicle offered to employees as part of Minnesota State Colleges and University's Individual Retirement Account Plan and College Supplemental Retirement Plan.
- 3. It serves as an external money manager for a portion of some local police and firefighter retirement plans.
- 4. It serves as the investment vehicle for the Voluntary Statewide Volunteer Firefighter Plan.

A wide diversity of investment goals exists among the Fund's participants. In order to meet those needs, the Fund has been structured much like a "family of mutual funds." Participants may allocate their investments among one or more accounts that are appropriate for their needs, within the statutory requirements and rules established by the participating organizations. Participation in the Fund is accomplished through the purchase or sale of shares in each account.

The investment returns shown in this report are calculated using a time-weighted rate of return formula. All returns are net of investment management fees.

On 3/31/2014 the market value of the entire Fund was \$1.7 billion.

ASSIGNED RISK PLAN

Investment Objectives

The Assigned Risk Plan has two investment objectives: to minimize the mismatch between assets and liabilities and to provide sufficient liquidity for the payment of on-going claims and operating expenses.

Asset Mix

The Assigned Risk Plan is invested in a portfolio of common stocks and bonds. The actual asset mix will fluctuate in response to changes in the Plan's liability stream.

PERMANENT SCHOOL FUND

Investment Objectives

The investment objective of the Permanent School Fund is to produce a growing level of spendable income, within the constraints of maintaining adequate portfolio quality and liquidity. The income from the portfolio is used to offset expenditures on school aid payments to local school districts.

Asset Mix

Effective with FY98, the Permanent School Fund is invested in a balanced portfolio of common stocks and bonds. Common stocks provide the potential for significant capital appreciation, while bonds provide portfolio diversification and a more stable stream of current income.

STATE CASH ACCOUNTS

Description

State Cash Accounts represent the cash balances in more than 400 separate accounts that flow through the Minnesota State Treasury. These accounts vary greatly in size.

Most accounts are invested by SBI staff through a short-term pooled fund referred to as the Treasurer's Cash Pool. It contains the cash balances of special or dedicated accounts necessary for the operation of certain State agencies and non-dedicated cash in the State Treasury.

In addition, each State of Minnesota bond sale requires two additional pools, one for bond proceeds and one for debt reserve transfer.

Because of special legal restrictions, a small number of cash accounts cannot be commingled. These accounts are invested separately.

Investment Objectives

Safety of Principal. To preserve capital.

Liquidity. To meet cash needs without the forced sale of securities at a loss.

Competitive Rate of Return. To provide a level of current income consistent with the goal of preserving capital.

Asset Mix

The SBI maximizes current income while preserving capital by investing all cash accounts in high quality, liquid, short-term investments. These include U.S. Treasury and Agency issues, repurchase agreements, bankers acceptances, commercial paper, and certificates of deposit.

Investment Management

All state cash accounts are managed by SBI investment staff. As noted above, most of the assets of the cash accounts are invested through the large commingled investment pool.

EXECUTIVE DIRECTOR'S ADMINISTRATIVE REPORT

DATE: M

May 22, 2014

TO:

Members, State Board of Investment

FROM:

Mansco Perry III

1. Reports on Budget and Travel

A report on the SBI's administrative budget for the period ending April 30, 2014 is included as **Attachment A**.

A report on travel for the period from February 2, 2014 – May 3, 2014 is included as **Attachment B**.

2. Legislative Update

I will present an update on the following legislative matters summarized in **Attachment C**.

- Merger of Duluth Teachers Retirement Fund into TRA
- Investment flexibility for defined contribution plans
- Exemption from pay equity certificate for state's deferred compensation plan managers
- Study for state-administered retirement savings plan
- Revision of OPEB Reporting to State Auditor's Office

3. Update on Sudan

Each quarter, staff provides a report to the Board on steps taken to implement *Minnesota Statutes*, section 11A.243 that requires SBI actions concerning companies with operations in Sudan. Staff receives periodic reports from the Conflict Risk Network (CRN) about the status of companies with operations in Sudan.

The SBI is restricted from purchasing stock in the companies designated as highest offenders by the CRN. Accordingly, staff updates the list of restricted stocks and notifies investment managers that they may not purchase shares in companies on the restricted list. Staff receives monthly reports from the SBI's custodian bank concerning SBI holdings of companies on the CRN list and writes letters as required by law.

According to the law, after 90 days following the SBI's communication, a company continues to have active business operations in Sudan, the SBI must divest holdings of the company according to the following schedule:

 at least 50% shall be sold within nine months after the company appeared on the Task Force list; and • 100% shall be sold within fifteen months after the company appeared on the list.

In the first quarter, SBI managers divested 10,975 shares in companies on the divestment list.

Attachment D is a copy of the March 17, 2014 letter sent to each international equity manager and domestic equity manager containing the most recent restricted list and the list of stocks to be divested.

Attachment E is an updated list of companies with operations in Sudan.

4. Update on Iran

Each quarter, staff provides a report to the Board on steps taken to implement *Minnesota Statutes*, section 11A.244 that requires SBI actions concerning companies with operations in Iran.

SBI receives information on companies with Iran operations from IW Financial, through Glass Lewis. Staff receives monthly reports from the SBI's custodian bank concerning SBI holdings of companies on the restricted list and writes letters as required by the law.

According to the law, if after 90 days following the SBI's communication a company continues to have scrutinized business operations, the SBI must divest all publicly traded securities of the company according to the following schedule:

- at least 50% shall be sold within nine months after the company appeared on the scrutinized list; and
- 100% within fifteen months after the company appeared on the scrutinized list.

In the first quarter, SBI held no shares of companies on the divestment list.

Attachment F is a copy of the March 17, 2014 letter sent to each international equity manager and domestic equity manager and fixed income manager containing the end of quarter restricted list and the list of companies to be divested.

5. Litigation Update

SBI legal counsel will give the Board a verbal update on the status of the litigation at the Board meeting on May 29, 2014.

Letter to SBI International Equity and Domestic Equity Managers

March 17, 2014

Regarding: Sudan Companies

Dear Manager:

The Minnesota State Board of Investment (SBI) sent you prior communication concerning holdings in companies doing business in Sudan. This new communication applies to all SBI equity portfolios managed by your organization and replaces all prior communications. This communication also applies to all depository receipts or ADR's of any of the listed companies.

Minnesota Statutes, section 11A.243 requires the SBI to implement a Sudan restriction.

Attachment 1 is the List of Restricted Sudan Stocks. These securities <u>may not</u> <u>be purchased</u> for the SBI portfolio that your organization manages. If you own securities of companies on the Restricted List <u>and</u> the companies are <u>not</u> on the divestment list, then you do not need to sell your holdings. Please note that the attached List makes changes to the List of Restricted Sudan Companies that was attached to the December 13, 2013 letter you received. This new list is effective March 19, 2014.

- The following companies have been added to the Restricted List:
 - MAN SE

Germany

Renk AG

Germany

- The following company has been **removed** from the Restricted List:
 - URAL Truck Plant

Russia

Attachment 2 is the List of Sudan Stocks Requiring Divestment. The following companies were added to the divestment list:

Andritz AG

Austria

• Bharat Electronics Ltd

India

• Bharat Heavy Electricals

India

If you own securities of companies on the List of Sudan Companies Requiring Divestment in the SBI portfolio that your organization manages, then you must <u>divest</u> those holdings according to the schedule provided in the Attachment:

- At least 50 percent of a company's holdings must be sold by the date indicated, and
- At least 100 percent of a company's holdings must be sold by the date indicated.

Attachment 3 is a list of security identifiers for the companies on the List of Restricted Sudan Stocks (Attachment 1) that your organization may use. The SBI does not represent that this is a complete list of identifiers. The manager is responsible for identifying all listings. Please note that the list of security identifiers may have information on companies not on the restricted list.

If you have any questions about this matter, please contact Tammy Brusehaver or Patricia Ammann, Domestic Equities; Stephanie Gleeson, International Equities or me.

Sincerely,

Mansco Perry III Executive Director

Letter to SBI International Equity and Domestic Equity Managers

March 17, 2014

Regarding: Iran Companies

Dear Manager:

The Minnesota State Board of Investment (SBI) sent you prior communication concerning holdings in companies doing business in Iran. This new communication applies to all SBI equity portfolios managed by your organization and replaces all prior communications. This communication also applies to all depository receipts or ADR's of any of the listed companies.

Minnesota Statutes, section 11A.244, requires the Minnesota State Board of Investment (SBI) to implement an Iran restriction.

Attachment 1 is the List of Restricted Iran Companies. These securities <u>may</u> <u>not be purchased</u> for the SBI portfolio that your organization manages. If you own securities of companies on the Restricted List <u>and</u> the companies are <u>not</u> on the divestment list, then you do not need to sell your holdings. Please note that the attached List makes changes to the List of Restricted Iran Companies that was attached to the December 13, 2013 letter you received. This new list is effective March 19, 2014.

The following company has been **added** to the restricted list:

• L G International

South Korea

Attachment 2 is the List of Iran Companies Requiring Divestment. There were no changes to this list.

If you own securities of companies on the List of Iran Companies Requiring Divestment in the SBI portfolio that your organization manages, then you must divest those holdings according to the schedule provided in the Attachment:

- At least 50 percent of a company's holdings must be sold by the date indicated, and
- At least 100 percent of a company's holdings must be sold by the date indicated.

Attachment 3 is a list of security identifiers for the companies on the List of Restricted Iran Companies (**Attachment 1**) that your organization may use. The SBI does not represent that this is a complete list of identifiers. The manager is responsible for identifying all listings.

If you have any questions about this matter, please contact Tammy Brusehaver or Patricia Ammann, Domestic Equity; Stephanie Gleeson, Manager, International Equity or me.

Sincerely,

Mansco Perry III
Executive Director

Letter to SBI Fixed Income Managers

March 17, 2014

Regarding: Iran Companies

Dear Manager:

The Minnesota State Board of Investment (SBI) sent you prior communication concerning holdings in companies doing business in Iran. This communication applies to the SBI fixed income portfolio managed by your organization.

Minnesota Statutes, section 11A.244, requires the Minnesota State Board of Investment (SBI) to implement an Iran restriction.

Attachment 1 is the List of Restricted Iran Companies. These securities <u>may</u> <u>not be purchased</u> for the SBI portfolio that your organization manages. If you own securities of companies on the Restricted List <u>and</u> the companies are <u>not</u> on the divestment list, then you do not need to sell your holdings. Please note that the attached List makes changes to the List of Restricted Iran Companies that was attached to the December 13, 2013 letter you received. This new list is effective March 19, 2014.

The following company has been added to the restricted list:

• L G International

South Korea

Attachment 2 is the List of Iran Companies Requiring Divestment. There were no changes to this list.

If you own securities of companies on the List of Iran Companies Requiring Divestment in the SBI portfolio that your organization manages, then you must <u>divest</u> those holdings according to the schedule provided in the Attachment:

- At least 50 percent of a company's holdings must be sold by the date indicated, and
- At least 100 percent of a company's holdings must be sold by the date indicated.

If you have any questions about this matter, please contact Ryan Hill, Portfolio Manager, Long-Term Debt or me.

Sincerely,

Mansco Perry III Executive Director

SBI ADMINISTRATIVE COMMITTEE REPORT

DATE:

May 22, 2014

TO:

Members. State Board of Investment

FROM:

SBI Administrative Committee

The Administrative Committee met on April 30, 2014 to consider the following agenda items:

- Review of Executive Director's Proposed Workplan for FY15
- Review of Budget Plan for FY14, FY15, and FY16
- Review of Continuing Fiduciary Education Plan
- Review of Executive Director's Evaluation Process
- Update of Business Continuity Plan

Action is required by the SBI on the first four items.

1. Review of Executive Director's Proposed Workplan for FY15.

The Executive Director's Proposed Workplan for FY15 was presented. As in previous workplans, the FY15 plan follows the same category order found in the Executive Director's position description. The plan is a compilation of on-going responsibilities as well as the new initiatives the Executive Director will undertake during the next fiscal year.

A summary of the proposed plan is shown in **Attachment A** on **page 5** of this Tab. Supporting information was sent to each Board member in April 2014 as part of the FY15 Management and Budget Plan document.

RECOMMENDATION:

The Committee recommends that the SBI approve the FY15 Executive Director's Workplan. Further, the Committee recommends that the Workplan serve as the basis for the Executive Director's performance evaluation for FY15.

2. Administrative Budget Plan.

The SBI's Administrative budget is set annually by the Board with direct charge-back to entities that invest with the SBI. The general fund appropriation for the management of general fund assets is appropriated by the Legislature.

An overview of the budget is **Attachment B** on **page 9** of this tab. Supporting information was sent to each Board member in April 2014 as part of the FY15 Management and Budget Plan.

RECOMMENDATION:

The Committee recommends that the SBI approve the FY14, FY15, and FY16 Administrative Budget Plan, as presented to the Committee, and that the Executive Director have the flexibility to reallocate funds between budget categories if the Executive Director deems necessary.

3. Review of Continuing Fiduciary Education Plan.

Minnesota Statutes, Chapter 356A requires each public pension plan to establish a continuing education plan for its fiduciaries. The plan approved by the Committee is in **Attachment C** on **page 11** of this Tab. Please note that the travel allocation policy for Board members and their designees is included in the plan.

RECOMMENDATION:

The Committee recommends that the SBI adopt the attached Continuing Fiduciary Education Plan.

4. Review of Executive Director's Evaluation and Salary Process.

The Committee discussed the process that will be used by the Board to evaluate the Executive Director for FY14. The Committee members agreed that the performance reviews should be completed prior to the September 2014 meeting of the SBI and should follow the process used in the past.

RECOMMENDATION:

The Committee recommends that the SBI adopt the following process for the Executive Director's FY14 performance evaluation:

• The evaluation will be completed prior to the September 2014 meeting of the SBI and will be based on the results of the Executive Director's workplan for FY14.

- The SBI deputies/designees will develop an appropriate evaluation form for use by each member, which will reflect the categories in the Executive Director's position description and workplan.
- Governor's office will coordinate distribution and collection of the evaluation forms and will forward the completed forms to the Executive Director. Board members are encouraged to meet individually with the Executive Director to review their own evaluation.

5. Update of Business Continuity Plan.

Staff updated the Committee regarding the SBI's Business Continuity Plan. The plan provides information and procedures required to respond to an emergency.

Administrative Budget Fiscal Year 2015 & 2016 Budget Plan Overview

The Fiscal Year 2015/2016 budget request is based on budget procedures instituted by Department of Minnesota Management and Budget.

New statutory authority was passed during the 2006 legislative session to establish a fixed amount from the General Fund and to have the balance of the MSBI's budget billed to organizations that use the MSBI's services. This authority was used to generate the fiscal year 2014 budget and also is the basis for the 2015 & 2016 budget projections. The 2015 budget includes the addition of five new positions, additional office space and one-time moving costs. On document E-3 we show the incremental budget impact of the additional staff positions.

CONTINUING FIDUCIARY EDUCATION PLAN

REQUIRED BY MS 356A.13

The State Board of Investment (SBI) undertakes the following activities related to fiduciary education. Taken as a group, these activities shall constitute the plan for continuing fiduciary education required by Minnesota Statutes 356A.13 (copy attached). In addition, pursuant to statutory requirements of qualification, the SBI executive director and many members of the Board's Investment Advisory Council (IAC) can be reasonably considered to be experts with respect to their duties as fiduciaries.

1. Briefing for New Board/IAC Members

Shortly after election to the Board or appointment to the IAC, each new member is briefed on SBI operations and policies. As part of the briefing, SBI's legal counsel will review the member's fiduciary obligations and responsibilities as specified in Minnesota Statutes Chapters 11A and 356A.

2. Development and Review of Investment Policies

The SBI adopts comprehensive investment policies for each fund under its control. The policies cover investment objectives, asset allocation, management structure, and performance evaluation. Policy papers or reports on these topics are developed and written by SBI staff in conjunction with the IAC and consultants. Relevant research and analyses from the academic and professional investment fields are used to formulate these policy guidelines.

After the Board formally adopts them, these written policies guide the management of all assets under the SBI's control. The SBI intends to review its stated investment policies periodically. This review may occur within the framework of the SBI's regular quarterly meetings or may take place at special meetings or seminars specifically designated for this purpose.

3. Input from Board's Consultants

The SBI retains outside investment consultants to advise the Board members on a wide variety of investment management issues. As part of their contracts with the SBI, the consultants offer to meet with the Board members or their designees to discuss investment-related issues. These individual consultations occur throughout the year. In addition, the general consultant is available at each meeting of the Board and IAC. These meetings are supplemented by quarterly reports on investment performance prepared by the general consultant.

4. Manager Roundtables

The SBI intends to convene small groups of its external money managers to discuss issues related to investment management and the financial markets. These roundtable discussions will be held periodically throughout the year and will be open to Board members and their designees, IAC members and other interested parties. It is anticipated that 2-3 roundtables will be held each year.

5. Travel Allocation

The SBI allocates \$4,000 annually to each Board member (or their designee) for costs associated with attendance at investment-related seminars and conferences. This allocation is used at the discretion of each Board member.

2013 Minnesota Statutes

356A.13. CONTINUING FIDUCIARY EDUCATION.

Subdivision 1. **Obligation of fiduciaries**. A fiduciary of a covered pension plan shall make reasonable effort to obtain knowledge and skills sufficient to enable the fiduciary to perform fiduciary activities adequately. At a minimum, a fiduciary of a covered pension plan shall comply with the program established in accordance with subdivision 2.

Subd. 2. Continuing fiduciary education program. The governing boards covered pension plans shall each develop and periodically revise a program for the continuing education of any of their board members and any of their chief administrative officers who are not reasonably considered to be experts with respect to their activities as fiduciaries. The program must be designed to provide those persons with knowledge and skills sufficient to enable them to perform their fiduciary activities adequately.

ACTION ITEM:

1. Investment Manager Review: Turner Investments, L.P., a domestic equity manager.

Organization

The SBI hired Turner Investments, L.P. in January 2004 to manage a small-cap growth portfolio with Bill McVail as the portfolio manager for the account. The investment staff has recently experienced significant turnover. At Turner, all investment staff have analyst responsibilities. Since September 2012, seven analysts have left from a team of 26. The two recent departures have been the most significant. Bill McVail, the SBI's portfolio manager, left in December 2013 and was also an analyst on the consumer discretionary team. McVail was replaced by Jason Schrotberger, who worked alongside McVail for 19 years, 12 of those at Turner. Due to McVail's mentoring of Schrotberger, staff expected continuity of the investment decisions. Staff continued to monitor the firm closely with the understanding that any additional personnel losses would be unacceptable. Vijay Shankaran departed in March 2014. Shankaran was a highly regarded analyst on the health care team who specialized in biotech and was also a portfolio manager. The client service contact has changed several times since 2012.

Assets

Firm assets have significantly declined since 2010, primarily in the large-cap portfolios. The small-cap assets remained fairly stable during this time. The SBI's small-cap growth portfolio was valued at \$417 million as of December 31, 2013.

Turner's Assets (Millions)	12/31/13	12/31/12	12/31/11	12/31/10	12/31/09	12/31/08
Total Firm	\$8,428	\$10,731	\$13,363	\$17,976	\$17,655	\$15,447
Small Cap Growth Strategy	\$1,921	\$1,950	\$1,833	\$2,239	\$1,532	\$1,073

Performance

As of December 2013, the portfolio has underperformed its benchmark for all time periods shown.

	One year	Two years	Three years	Four years	Five years	Seven years	Since inception (Jan 04)
Turner	40.8	26.2	14.9	18.3	21.8	8.7	9.2
Russell 2000 Growth	43.3	28.1	16.8	19.8	22.6	8.9	9.4
Net performance	-2.5	-1.9	-1.9	-1.5	-0.8	-0.2	-0.2

The portfolio outperformed in 2009, underperformed slightly in 2010 and trailed in each of the most recent calendar years.

Calendar Year Ending	2013	2012	2011	2010	2009
Turner	40.8	13.1	-4.8	29.0	36.9
Russell 2000 Growth	43.3	14.6	-2.9	29.1	34.5
Net performance	-2.5	-1.5	-1.9	-0.1	2.4

RECOMMENDATION:

Due to significant staff departures, loss of firm assets and continued long- and short-term underperformance, staff and the IAC recommend that the SBI terminate the relationship with Turner Investments L.P.

INTECH INVESTMENT MANAGEMENT LLC Periods Ending March, 2014

Portfolio Manager: Adrian Banner

Assets Under Management: \$528,120,176

Investment Philosophy

Through the application of a proprietary mathematical process, the investment strategy is designed to determine more efficient weightings of the securities within the Russell 1000 Growth benchmark. specific sector or security selection decisions based on fundamentals are required. Risk parameters include: 1) minimize absolute standard deviation or maximize information ratio, 2) security positions limited to lesser of 2.5% or 10 times maximum index security weight, and 3) beta equal to or less than benchmark beta. Target security positions are established using an optimization routine designed to build a portfolio that will outperform a passive benchmark over the long term. Rebalancing to target proportions occurs every six (6) business days, and partial re-optimization occurs weekly.

WINSLOW CAPITAL MANAGEMENT, LLC Periods Ending March, 2014

Portfolio Manager: Justin Kelly and Patrick Burton

Assets Under Management: \$273,120,148

Investment Philosophy

The strategy identifies companies that can grow earnings above consensus expectations to build portfolios with forward weighted earnings growth in the range of 15-20% annually. A quantitative screen is employed for factors such as revenue and earnings growth, return on invested capital, earnings consistency, earnings revisions, low financial leverage and high free cash flow rates relative to net income. Resulting companies are subjected to a qualitative assessment within the context of industry sectors. Detailed examination of income statements, cash flow and balance sheet projections is conducted, along with a judgment on the quality of management. Attractively valued stocks are chosen based on P/E relative to the benchmark, sector peers, the company's sustainable future growth rate and return on invested capital. Final portfolio construction includes diversification by economic sectors, earnings growth rates, price/earnings ratios and market capitalizations.

ZEVENBERGEN CAPITAL INVESTMENTS LLC Periods Ending March, 2014

Portfolio Manager: Nancy Zevenbergen Assets Under Management: \$588,493,770

Investment Philosophy

Zevenbergen is an equity growth manager. The investment philosophy is based on the belief that earnings drive stock prices while quality provides capital protection. Hence, portfolios are constructed with companies showing above-average earnings growth prospects and strong financial characteristics. They consider diversification for company size, expected growth rates and industry weightings to be important risk control factors. Zevenbergen uses a bottom-up fundamental approach to security analysis. Research efforts focus on finding companies with superior products or services showing consistent profitability. Attractive buy candidates are reviewed for sufficient liquidity and potential diversification. The firm emphasizes that they are not market timers.

Staff Comments

Zevenbergen has been consistent with their investment process, and the organization remains stable. The significant outperformance for the year is not a concern due to the expected higher tracking error, or active risk, for this portfolio.

BARROW, HANLEY, MEWHINNEY & STRAUSS, INC. Periods Ending March, 2014

Portfolio Manager: Tim Culler

Assets Under Management: \$765,511,094

Investment Philosophy

The manager's approach is based on the underlying philosophy that markets are inefficient. Inefficiencies can best be exploited through adherence to a value-oriented investment process dedicated to the selection of securities on a bottom-up basis. The team does not attempt to time the market or rotate in and out of broad market sectors.

The manager remains fully invested with a defensive, conservative orientation based on the belief that superior returns can be achieved while taking below average risks. This strategy is implemented by constructing portfolios of individual stocks that exhibit price/earnings and price/book ratios significantly *below* the market and dividend yields significantly *above* the market. Risk control is achieved by limiting sector weights to 35% and industry weights to 15%. In periods of economic recovery and rising equity markets, profitability and earnings growth are rewarded by the expansion of price/earnings ratios and the generation of excess returns.

Investment Philosophy

Earnest Partners utilizes its proprietary Return Pattern Recognition model and rigorous fundamental review to identify stocks with the most attractive relative returns. They have identified six performance drivers valuation measures, operating trends, market trends, growth measures, profitability measures macroeconomic measures. Extensive research is conducted to determine which combination of performance drivers, or return patterns, precede outperformance for stocks in each sector. They select stocks whose return patterns suggest favorable performance and control risk using a statistical program designed to measure and control the prospects of substantially under-performing the benchmark. The portfolio is diversified across industry groups.

EARNEST PARTNERS Rolling Five Year Returns Compared to Benchmark

Five Year Period Ending

Note: Area to left of vertical line includes performance prior to retention by the SBL

Portfolio Manager: Josef Lakonishok

Assets Under Management: \$764,921,031

Investment Philosophy

The fundamental premise on which LSV's investment philosophy is based is that superior long-term results can be achieved by systematically exploiting the judgmental biases and behavioral weaknesses that influence the decisions of many investors. These include: the tendency to extrapolate the past too far into the future, wrongly equating a good company with a good investment irrespective of price, ignoring statistical evidence and developing a "mindset" about a company.

The strategy's primary emphasis is the use of quantitative techniques to select individual securities in what would be considered a bottom-up approach. Value factors and security selection dominate sector/industry factors as explanatory variables of performance. The competitive strength of this strategy is that it avoids introducing to the process any judgmental biases and behavioral weaknesses that often influence investment decisions.

SYSTEMATIC FINANCIAL MANAGEMENT, L.P. Periods Ending March, 2014

Portfolio Manager: Kevin McCreesh

Assets Under Management: \$713,083,175

Investment Philosophy

Systematic's investment strategy favors companies with low forward P/E multiples and a positive earnings catalyst. Cash flow is analyzed to confirm earnings and to avoid companies that may have employed accounting gimmicks to report earnings in excess of Wall Street expectations. The investment strategy attempts to avoid stocks in the "value trap" by focusing only on companies with confirmed fundamental improvement as evidenced by a genuine positive earnings surprise.

The investment process begins with quantitative screening that ranks the universe based on: 1) low forward P/E, and 2) a positive earnings catalyst, which is determined by a proprietary 16-factor model that is designed to be predictive of future positive earnings surprises. The screening process generates a research focus list of 150 companies, sorted by sector, upon which rigorous fundamental analysis is conducted to confirm each stock's value and catalysts for appreciation.

MCKINLEY CAPITAL MANAGEMENT, LLC. Periods Ending March, 2014

Portfolio Manager: Robert A. Gillam

Assets Under Management: \$383,464,651

Investment Philosophy

The team believes that excess market returns can be achieved through the construction and management of a diversified, fundamentally sound portfolio of inefficiently priced securities whose earnings growth rates are accelerating above market expectations. Using proprietary quantitative models, the team systematically searches for and identifies early signs of accelerating growth. The initial universe consists of growth and value stocks from all capitalization categories.

The primary model includes a linear regression model to identify common stocks that are inefficiently priced relative to the market while adjusting each security for standard deviation. The ratio of alpha to standard deviation is the primary screening value and is used to filter out all but the top 10% of stocks in its initial universe. The remaining candidates are tested for liquidity and strength of earnings. In the final portfolio construction process, qualitative aspects are examined, including economic factors, Wall Street research, and specific industry themes.

NEXT CENTURY GROWTH INVESTORS, LLC Periods Ending March, 2014

Portfolio Manager: Thomas Press and Don Longlet

Assets Under Management: \$390,136,883

Investment Philosophy

Next Century Growth's (NCG) goal is to invest in the highest quality and fastest growing companies in America. They believe that growth opportunities exist regardless of the economic cycle. NCG uses fundamental analysis to identify companies that will surpass consensus earnings estimates, which they believe to be the number one predictor of future outperformance. Their investment process focuses on growth companies that have superior top line revenue growth (15% or greater), high profitability, and strong balance sheets, and are well poised to outperform the market. NCG believes in broad industry diversification; sector exposures are limited to twice the benchmark weighting and individual positions to five percent.

Staff Comments

Next Century has been consistent with their investment process and staff remains stable. The quarterly performance was hurt by stock selection, primarily in the technology sector. However, the technology sector continues to positively impact the one-year outperformance.

GOLDMAN SACHS ASSET MANAGEMENT, L.P. Periods Ending March, 2014

Portfolio Manager: Sally Pope-Davis and Rob Crystal

Assets Under Management: \$260,465,810

Investment Philosophy

The firm's value equity philosophy is based on the belief that all successful investing begins with fundamental stock selection that should thoughtfully weigh a stock's price and prospects. A company's prospective ability to generate high cash flow returns on capital will strongly influence investment success. The team follows a strong valuation discipline to purchase well-positioned, cash generating businesses run by shareholder-oriented management teams.

Through extensive proprietary research, the team confirms that a candidate company's long-term competitive advantage and earnings power are intact. The team seeks to purchase a stock at a price that encompasses a healthy margin of safety. The investment process involves three steps: 1) prioritizing research, 2) analyzing fundamentals, and 3) portfolio construction. The independent Risk and Performance Analytics Group (RPAG) monitors daily portfolio management risk, adherence to client guidelines and general portfolio strategy.

HOTCHKIS & WILEY CAPITAL MANAGEMENT Periods Ending March, 2014

Portfolio Manager: Jim Miles and David Green

Assets Under Management: \$237,083,108

Investment Philosophy

The firm seeks to exploit mispriced securities in the small cap market by investing in "undiscovered" or "out of favor" companies. The team invests in stocks where the present value of the company's future cash flows exceeds the current market price. This approach exploits equity market inefficiencies created by irrational investor behavior and lack of Wall Street research coverage of smaller capitalization stocks. The team employs a disciplined, bottom-up investment process that emphasizes internally generated fundamental research.

The investment process begins with a quantitative screen based on market capitalization, trading liquidity and enterprise value/normalized EBIT, supplemented with ideas generated from the investment team. Internal research is then utilized to identify the most attractive valuation opportunities within this value universe. The primary focus of the research analyst is to determine a company's "normal" earnings power, which is the basis for security valuation.

MARTINGALE ASSET MANAGEMENT, L.P. Periods Ending March, 2014

Portfolio Manager: William Jacques

Assets Under Management: \$208,188,651

Investment Philosophy

Martingale's investment process seeks to exploit the long-term link between undervalued company fundamentals and current market prices to achieve superior investment returns. Martingale has a long history of employing sound quantitative methods.

The valuation process is comprised of well-researched valuation indicators that have stood the test of time, with improvements made only after careful evaluation, testing and analysis. Multiple characteristics of quality, value and momentum are examined. The quality of company management is assessed by reviewing commitment to R&D, accounting practices with regard to earnings and cash flow from operations, and the ability to manage inventory.

The average holding period of a stock is typically one year. Every holding is approached as an investment in the business, with the intention of holding it until either objectives are reached, or it becomes apparent that there are better opportunities in other stocks.

Portfolio Manager: Doug Pugh and Tasso Coin

Assets Under Management: \$343,979,961

Investment Philosophy

Peregrine's Small Cap Value investment process begins with the style's proprietary valuation analysis, which is designed to identify the small cap value stocks most likely to outperform. The valuation analysis identifies the most under-priced securities on a sector-by-sector Drawing on thirty years of data, the analysis looks at different combinations of sixty fundamental factors most relevant in each independent sector to identify stocks that offer significant value relative to the companies' underlying fundamentals. The focus of the team's fundamental research is to determine if one or more of the style's "Value Buy Criteria" are present. These include short-term problems, unrecognized assets, take-over potential, and catalysts for change. portfolio is diversified and sector weights are aligned closely with the benchmark. Investment Philosophy - Semi-Passive Style

The Core Alpha Model disaggregates individual equity returns for each of the 3500 stocks in their universe into fundamental, expectational, and technical components. The fundamental factors look at measures of underlying company value including earnings, book value, cash flow, and sales. These factors help identify securities that trade at prices below their true economic value. The expectational factors incorporate future earnings and growth rate forecasts made by over 2500 security analysts. The technical factors provide a measure of recent changes in company fundamentals, consensus expectations, and performance. Estimated alphas are then calculated and are used in a portfolio optimization algorithm to identify the optimal portfolio.

Assets Under Management: \$2,480,840,723

Investment Philosophy - Semi-Passive Style

Through the application of a proprietary mathematical process, the investment strategy is designed to determine more efficient weightings of the securities within the Russell 1000 benchmark. No specific sector or security selection decisions based on fundamentals are required. Risk parameters include: 1) minimize absolute standard deviation or maximize information ratio, 2) security positions limited to lesser of 1.0% or 8 times maximum index security weight, 3) beta equal to or less than benchmark beta, and 4) constraining the weighted average capital distribution to be roughly equal to the capital distribution of the benchmark. Target security positions are established using a weekly optimization routine designed to build a portfolio that will outperform a passive benchmark over the long term. Rebalancing to target proportions occurs every six (6) business days.

J.P. MORGAN INVESTMENT MANAGEMENT INC. Periods Ending March, 2014

Portfolio Manager: Ralph Zingone Assets Under Management: \$2,897,026,690

Investment Philosophy - Semi-Passive Style

J.P. Morgan believes that superior stock selection is necessary to achieve excellent investment results. To accomplish this objective, they use fundamental research and a systematic valuation model. Analysts forecast the earnings and dividends for the 650 stock universe and enter them into a stock valuation model that calculates an expected return for each security. The stocks are ranked according to their expected return within their economic sectors. The most undervalued stocks are placed in the first quintile. The portfolio includes stocks from the first four quintiles, always favoring the highest ranked stocks whenever possible. Stocks in the fifth quintile are sold. In addition, the portfolio closely approximates the sector, style, and security weightings of the index chosen by the plan sponsor. The firm remains fully invested at all times.

Portfolio Manager: Warren Chiang

Assets Under Management: \$2,589,706,132

Investment Philosophy - Semi-Passive Style

Mellon believes that rigorous and consistent application of fundamentally based valuation criteria will produce value added investment returns. Mellon builds a portfolio by using a series of more than 30 integrated computer models that value a universe of 3500 stocks. Their models rank each security based on fundamental momentum, relative value, future cash flow, and supplementary models. A composite ranking then provides one ranked list of securities reflecting their relative attractiveness. Stocks that fall below the median ranking are sold, and proceeds are reinvested in stocks from the top deciles in the ranking system. They use the BARRA risk model to monitor the portfolio's systematic risk and industry weightings relative to the selected benchmark. For this semi-passive mandate, they seek to achieve a residual risk of 1.5% or less. The firm remains fully invested at all times.

ABERDEEN ASSET MANAGEMENT INC. Periods Ending March, 2014

Portfolio Manager: Neil Moriarty

Assets Under Management: \$1,065,785,880

Investment Philosophy

Aberdeen (formerly Deutsche) believes there are pricing inefficiencies inherent in bond markets and that diligent credit analysis, security structure evaluation, and relative value assessment can be used to exploit these inefficiencies. The firm avoids interest rate forecasting and sector rotation because they believe these strategies will not deliver consistent outperformance versus the benchmark over time. The firm's valued added is derived primarily from individual security selection. Portfolio managers and analysts research bonds within their sector of expertise and construct portfolios from the bottom-up, bond by bond. Sector weightings are a byproduct of the bottom-up security selection. Aberdeen was retained by the SBI in February 2000.

Staff Comments

Aberdeen completed their acquisition of Scottish Window Investment Partners (SWIP) on April 1, 2014. SWIP managed \$220B prior to the acquisition, with \$75B representing fixed income assets. The acquisition should not affect the SBI portfolio.

COLUMBIA MANAGEMENT - FIXED INCOME Rolling Five Year Returns Compared to Benchmark

Portfolio Manager: Dana Emery

Assets Under Management: \$1,475,640,635

Investment Philosophy

Dodge & Cox manages a high quality, diversified portfolio of securities that are selected through fundamental analysis. The firm believes that by combining fundamental research with a long-term investment horizon it is possible to uncover inefficiencies in market sectors and individual securities. The firm combines this fundamental research with a disciplined program of risk analysis. To seek superior returns over the long-term, Dodge & Cox emphasizes sector and security selection, strives to build portfolios that have a higher yield than the broad bond market, and analyzes portfolio and individual security risk. Dodge & Cox was retained by the SBI in February 2000.

Staff Comments

Dodge & Cox completed a company management change during the second quarter of 2013. Dana Emery assumed the role of Chief Executive Officer and President and will continue in her role as Director of Fixed Income. The organizational change should not affect the SBI portfolio. PACIFIC INVESTMENT MANAGEMENT COMPANY LLC (PIMCO) Periods Ending March, 2014

Portfolio Manager: Bill Gross

Assets Under Management: \$1,556,560,300

Investment Philosophy

PIMCO's investment approach seeks to outperform a client's benchmark on a consistent basis, while maintaining overall risk similar to the index. PIMCO's approach to investing has three key principles: the utilization of multiple strategies, a long-term orientation and bond selection from a broad universe. PIMCO's investment process starts with an annual Secular Forum. The goal of this Forum is to look beyond the current business cycle and determine how secular forces will play out over the next 3 to 5 years. Quarterly, PIMCO holds Economic Forums to evaluate growth and inflation over the next 6 to 9 months. Following PIMCO's Secular and Economic Forums, the PIMCO Investment Committee (IC) develops key portfolio They consider both the "top-down" strategies. conclusions emanating from PIMCO's Forum, as well as the "bottom-up" market intelligence provided by PIMCO's teams of sector specialist portfolio managers. Through an interactive series of meetings, the IC defines a set of consistent strategies that are then implemented. PIMCO was retained by the SBI in September 2008.

WESTERN ASSET MANAGEMENT COMPANY Periods Ending March, 2014

Portfolio Manager: Ken Leech Assets Under Management: \$1,609,245,310

Investment Philosophy

Western emphasizes the use of multiple strategies and active sector and issue selection, while constraining interest rate risk. Multiple strategies are proportioned so that results do not depend on one or two opportunities. This approach adds consistent value over time and can reduce volatility. Long-term value investing is Western's fundamental approach. In making their sector decision, the firm seeks out the greatest long-term value by analyzing all fixed income market sectors and their economic expectations. Individual issues are identified based on relative credit strength, liquidity, issue structure, event risk, and market valuation. Western believes that successful interest rate forecasting is extremely difficult and consequently keeps portfolio duration within a narrow band around the benchmark. Western was retained by the SBI in July 1984.

WESTERN ASSET MANAGEMENT Rolling Five Year Returns Compared to Benchmark

BLACKROCK FINANCIAL MANAGEMENT Periods Ending March, 2014

Portfolio Manager: Brian Weinstein

Assets Under Management: \$1,871,629,438

Investment Philosophy

BlackRock manages an enhanced index portfolio closely tracking the Barclays Capital U.S. Aggregate Bond Index. The firm's enhanced index strategy is a controlled-duration, sector rotation style, which can be described as active management with tighter duration, sector, and quality constraints. BlackRock seeks to add value through: (i) controlling portfolio duration within a narrow band relative to the benchmark, (ii) relative value sector/sub-sector rotation and security selection, (iii) rigorous quantitative analysis to the valuation of each security and of the portfolio as a whole, (iv) intense credit analysis and review, and (v) the judgment of experienced portfolio managers. Advanced risk analytics measure the potential impact of various sector and security strategies to ensure consistent value added and controlled volatility. BlackRock was retained by the SBI in April 1996.

Staff Comments

Brian Weinstein, Head of Multi-Sector Institutional Fixed Income and Portfolio Manager for the SBI portfolio, will resign from BlackRock in June 2014. Akiva Dickstein, Head of Mortgages, will replace Mr. Weinstein as Portfolio Manager for the SBI portfolio. BlackRock also expanded its Executive Leadership team and hired Barry Knapp as Head of Thematic Strategies within the Americas Fixed Income group. Staff will meet with BlackRock during the second quarter to discuss the transition and recent organizational changes.

GOLDMAN SACHS ASSET MANAGEMENT Periods Ending March, 2014

Portfolio Manager: Mike Goosay

Assets Under Management: \$2,495,010,753

Investment Philosophy

Goldman manages an enhanced index portfolio closely tracking the Barclays Capital U.S. Aggregate Bond Index. Goldman's process can be viewed as active management within a very risk-controlled framework. The firm relies primarily on sector allocation and security selection strategies to generate incremental return. To a lesser degree, term structure strategies are also implemented. Goldman combines long-term strategic investment tilts with short-term tactical trading opportunities. Strategic tilts are based on fundamental and quantitative sector research and seek to optimize the long-term risk/return profile of portfolios. Tactical trades between sectors and securities within sectors are implemented to take advantage of short-term market anomalies. Goldman was retained by the SBI in July 1993.

Portfolio Manager: Andrew Johnson

Assets Under Management: \$2,473,871,702

Investment Philosophy

Neuberger (formerly Lincoln) manages an enhanced index portfolio closely tracking the Barclays Capital U.S. Aggregate Bond Index. Neuberger's process relies on a combination of quantitative tools and active management judgment. Explicit quantification and control of risks are at the heart of their process. Neuberger uses proprietary risk exposure measures to analyze 24 interest rate factors, and over 30 spreadrelated factors. For each interest rate factor, the portfolio is very closely matched to the index to ensure that the portfolio earns the same return as the index for any change in interest rates. For each spread factor, the portfolio can deviate slightly from the index as a means Setting target active risk of seeking value-added. exposures that must fall within pre-established To control credit risk, maximums controls risk. corporate holdings are diversified across a large number of issues. ACADIAN ASSET MANAGEMENT, LLC Periods Ending March, 2014

Portfolio Manager: John Chisholm

Assets Under Management: \$380,848,301

Investment Philosophy

Acadian believes there are inefficiencies in the global equity markets that can be exploited by a disciplined quantitative investment process. In evaluating markets and stocks. Acadian believes it is most effective to use a range of measures, including valuation, price trends, financial quality and earnings information. Risk control is a critical part of the Acadian approach. Acadian's process seeks to capture value-added at both the stock and the sector/country level. The process is active and bottom-up, but each stock forecast also contains a sector/country forecast. Selection is made from a very broad investment universe using disciplined, factordriven quantitative models. Portfolios are constructed with an optimizer and are focused on targeting a desired level of active risk relative to a client's chosen benchmark index.

COLUMBIA MANAGEMENT INVESTMENT ADVISERS, LLC Periods Ending March, 2014

Portfolio Manager: William Davies

Assets Under Management: \$345,618,333

Investment Philosophy

Columbia's philosophy focuses on key forces of change in markets and the companies that will benefit. The firm believes that in a global marketplace, where sustainable competitive advantage is rare, their research should focus on the dynamics of change. A good understanding of the likely impact of these changes at a company level, complemented with an appreciation of the ability of management to exploit these changes, creates significant opportunities to pick winners and avoid losers.

Staff Comments

Columbia announced in the 3Q13 that portfolio manager, Esther Perkins, left the firm. She has been replaced by William Davies who is head of the Global Equity team. The SBI will closely monitor this transition and the portfolio's performance going forward.

J.P. MORGAN INVESTMENT MANAGEMENT INC. Periods Ending March, 2014

Portfolio Manager: James Fisher Assets Under Management: \$303,209,625

Investment Philosophy

JP Morgan's international equity strategy seeks to add value through active stock selection, while remaining diversified by both sector and region. The portfolio displays a large capitalization size bias and a slight growth orientation. Stock selection decisions reflect the insights of approximately 150 locally based investors, ranking companies within their respective local markets. The most attractive names in each region are then further validated by a team of Global Sector Specialists who seek to take the regional team rankings and put these into a global context. The team of six senior portfolio managers draws together the insights of both the regional and global specialists, constructing a portfolio of the most attractive names.

MARATHON ASSET MANAGEMENT LLP Periods Ending March, 2014

Portfolio Manager:

William Arah

Assets Under Management: \$761,700,975

Investment Philosophy

Marathon uses a blend of flexible, qualitative disciplines to construct portfolios which exhibit a value bias. Style and emphasis will vary over time and by market, depending on Marathon's perception of lowest risk opportunity. Since they believe that competition determines profitability, Marathon is attracted to industries where the level of competition is declining and they will hold a sector position as long as the level of competition does not increase. At the stock level, Marathon tracks a company's competitive position versus the attractiveness of their products or services and attempts to determine whether the company is following an appropriate reinvestment strategy for their current competitive position.

MCKINLEY CAPITAL MANAGEMENT LLC Periods Ending March, 2014

Portfolio Manager: Robert A. Gillam Assets Under Management: \$308,332,287

Investment Philosophy

At McKinley Capital, investment decisions are based on the philosophy that excess market returns can be achieved through the construction and active management of a diversified, fundamentally sound portfolio of inefficiently priced common stocks whose earnings growth rates are accelerating above market expectations. A disciplined quantitative investment process drives all product strategies. The firm can be described as a bottom-up growth manager. employ both a systematic screening process and a qualitative overview to construct and manage portfolios. Investment ideas are initially generated by the quantitative investment process. The balance of the qualitative overlay seeks to identify securities with earnings estimates that are reasonable and sustainable. All portfolios managed by McKinley Capital use the same investment process and construction methodology to manage portfolios.

Staff Comments

PYRAMIS GLOBAL ADVISORS TRUST COMPANY (Active) Periods Ending March, 2014

Portfolio Manager: Chris Steward & Brian Hoesly

Assets Under Management: \$358,493,267

Investment Philosophy

Pyramis' International Growth is a core, growth-oriented strategy that provides diversified exposure to the developed international markets. The investment process combines active stock selection and regional asset allocation. Four portfolio managers in London, Tokyo, Hong Kong, Smithfield Rhode Island, and Toronto construct regional sub-portfolios, selecting stocks based on Fidelity analysts' bottom-up research and their own judgment and expertise. Portfolio guidelines seek to ensure risk is commensurate with the performance target and to focus active risk on stock selection. Resulting portfolios typically contain between 200-250 holdings.

Investment Philosophy

Morgan Stanley's style is core with a growth bias. They follow a top-down approach to country allocation and a bottom-up approach to stock selection. Morgan Stanley's macro-economic and stock selection analyses are qualitative as well as quantitative, concentrating on fundamentals. Their top-down analysis highlights countries with improving fundamentals and attractive valuations. Their bottom-up approach to stock selection focuses on purchasing companies with strong operating earnings potential at attractive valuations.

MORGAN STANLEY INVESTMENT MANAGEMENT Rolling Five Year Returns Compared to Benchmark

AQR CAPITAL MANAGEMENT, LLC Periods Ending March, 2014

Portfolio Manager: Cliff Asness Assets Under Management: \$354,412,592

Investment Philosophy

AQR employs a disciplined quantitative approach emphasizing both top-down country/currency allocation and bottom-up security selection decisions to generate excess returns. AQR's investment philosophy is based on the fundamental concepts of value and momentum. AQR's international equity product incorporates stock selection, country selection, and currency selection models as the primary alpha sources. Dynamic strategy allocation (between the three primary alpha sources) and style weighting are employed as secondary alpha sources.

AQR CAPITAL MANAGEMENT, LLC Rolling Five Year Returns Compared to Benchmark

PYRAMIS GLOBAL ADVISORS TRUST COMPANY (Semi-Passive) Periods Ending March, 2014

Portfolio Manager: Cesar Hernandez

Assets Under Management: \$522,365,263

Investment Philosophy

Pyramis' Select International strategy combines active stock selection with quantitative risk control to provide consistent excess returns above the benchmartk while minimizing relative volatility and risk. By combining five regional sub-portfolios in the U.K., Canada, Continental Europe, Japan, and the Pacific Basin ex Japan, the portfolio manager produces a portfolio made up of the best ideas of the firm's research analysts. Each regional portfolio is created so that stock selection is the largest contributor to active return while systematic, sector, and factor risks are minimized. The portfolio manager uses a combination of proprietary and thirdparty optimization models to monitor and control risk within each regional module. Resulting portfolios typically contain between 275 and 325 holdings.

PYRAMIS GLOBAL ADVISORS TRUST CO. - SELECT INTL Rolling Five Year Returns Compared to Benchmark

STATE STREET GLOBAL ADVISORS (Semi-Passive) Periods Ending March, 2014

Portfolio Manager: Adel Daghmouri Assets Under Management: \$323,818,346

Investment Philosophy

SSgA's Alpha strategy is managed using a quantitative process. Stock selection provides the best opportunity to add consistent value. Industry factors have come to dominate country factors and an approach that uses industry weights to add incremental value complements stock selection. Unwanted biases are controlled through disciplined risk-control techniques. Country and regional allocations are a result of the security selection process but are managed to remain with +/- 5% of the benchmarks allocation. Sector and industry allocations are managed to be within +/- 3% of the benchmarks allocation. The portfolio managers on this team have extensive experience and insight, which is used in conjunction with the models to create core portfolios.

STATE STREET GLOBAL ADVISORS - ALPHA Rolling Five Year Returns Compared to Benchmark

STATE STREET GLOBAL ADVISORS (Passive Developed Markets) Periods Ending March, 2014

Portfolio Manager: Lynn Blake

Assets Under Management: \$3,607,768,923

Investment Philosophy

State Street Global Advisors (SSgA) passively manages the portfolio against the Morgan Stanley Capital International (MSCI) World ex U.S. index of 23 markets located in the developed markets outside of the United States (including Canada). SSgA fully replicates the index whenever possible because it results in lower turnover, higher tracking accuracy and lower market impact costs. The MSCI World ex U.S. (net) index reinvests dividends assuming a withholding tax on dividends, according to the Luxembourg tax rate. Whereas the portfolio reinvests dividends using all available reclaims and tax credits available to a U.S. pension fund, which should result in modest positive tracking error, over time.

GE ASSET MANAGEMENT INC. - Assigned Risk Plan Periods Ending March, 2014

Portfolio Manager: Dave Carlson

Assets Under Management: \$66,147,606

Investment Philosophy Assigned Risk Plan

GE's Multi-Style Equity program attempts to outperform the S&P 500 consistently while controlling overall portfolio risk through a multiple manager approach. A value portfolio, a growth portfolio and a research portfolio are combined to create a well diversified equity portfolio while maintaining low relative volatility and a style-neutral position between growth and value. All GE managers focus on stock selection from a bottom-up perspective.

RBC GLOBAL ASSET MANAGEMENT (U.S.) INC. - Assigned Risk Plan Periods Ending March, 2014

Portfolio Manager: Brian Svendahl

Assets Under Management: \$221,669,581

Investment Philosophy Assigned Risk Plan

RBC uses a top-down approach to fixed income investing. Their objective is to obtain superior long-term investment returns over a pre-determined benchmark that reflects the quality constraints and risk tolerance of the Assigned Risk Plan. Due to the specific liability requirement of the plan, return enhancement will focus on sector analysis and security selection. Yield curve and duration analysis are secondary considerations.

Investment Philosophy Janus Twenty

The investment objective of this fund is long-term growth of capital from increases in the market value of the stocks it owns. The fund will concentrate its investments in a core position of between twenty to thirty common stocks. This non-diversified fund seeks to invest in companies that the portfolio manager believes have strong current financial positions and offer growth potential.

Vanguard Mid-Cap Index

The fund employs a "passive management"- or indexinginvestment approach designed to track the performance of the MSCI US Mid Cap 450 Index, a broadly diversified index of stocks of medium-size U.S. companies. The fund attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting within the index.

Investment Philosophy T. Rowe Price Small Cap Equity Fund

The strategy of this fund is to invest primarily in stocks of small to medium-sized companies that are believed to offer either superior earnings growth or appear undervalued. The fund normally invests at least 80% of assets in equities of small companies in the Russell 2000 or S&P Small-Cap 600. The manager does not favor making big bets on any particular sector or any particular stock. The fund's combination of growth and value stocks offers investors relatively more stable

performance compared to other small cap stock funds.

Investment Philosophy Dodge & Cox Income Fund

The objective of this fund is a high and stable rate of current income with capital appreciation being a secondary consideration. This portfolio is invested primarily in intermediate term, investment-grade quality corporate and mortgage bonds and, to a lesser extent, government issues. While the fund invests primarily in the U.S. bond market, it may invest a small portion of assets in dollar-denominated foreign securities. The duration of the portfolio is kept near that of the bond market as a whole.

Staff Comments

Dodge & Cox completed a company management change during the second quarter of 2013. Dana Emery assumed the role of Chief Executive Officer and President and will continue in her role as Director of Fixed Income. The organizational change should not affect the SBI portfolio. Investment Philosophy Vanguard Total Bond Market Index Institutional

The fund attempts to track the performance of the Barclays Capital Aggregate Bond Index, which is a widely recognized measure of the entire taxable U.S. bond market. The index consists of more than 7,800 U.S. Treasury, federal agency, mortgage-backed, and investment-grade corporate securities. Because it is not practical or cost-effective to own every security in the index, the fund invests in a large sampling that matches key characteristics of the index (such as market-sector weightings, coupon interest rates, credit quality, and maturity). To boost returns, the fund holds a higher percentage than the index in short-term, investment-grade corporate bonds and a lower percentage in short-term Treasury securities.

Investment Philosophy Target Retirement Funds

The most important factor in determining the asset allocation mix is the time horizon of each fund. Funds with longer time horizons are assigned initial risk and return objectives which reflect the need to outpace inflation, the ability to take on more short-term volatility, and a reduced need for regular income. This results in larger starting equity allocations. Funds with shorter time horizons are assigned risk and return objectives that reflect a lower tolerance for volatility and an increased need for regular income, and therefore lower equity allocations.

The broad equity/fixed allocations are driven by the risk and return objectives for each fund. In determining the mix, the following factors are considered:

- The time horizon of each fund, which translates into a specific risk/return objective.
- SSgA current capital market assumptions and their impact on the forward looking risk/return of the portfolio.
- The need to differentiate the risk/return profiles for each portfolio so as to offer distinctly different options for plan participants.

INVESTMENT ADVISORY COUNCIL REPORT

DATE:

May 22, 2014

TO:

Members, State Board of Investment

FROM:

Members, Investment Advisory Council

The Investment Advisory Council met on May 20, 2014 to review the following information and action agenda items:

· Review of current strategy.

 New investments with one existing resource manager (Merit Energy) and one existing private equity manager (Banc Funds).

Board action is required on the last two items.

INFORMATION ITEM:

1) Review of Current Strategy.

To increase overall portfolio diversification, 20% of the Combined Funds is allocated to alternative investments. Alternative investments include real estate, private equity, resource, and yield-oriented investments in which Minnesota State Board of Investment (SBI) participation is limited to commingled funds or other pooled vehicles. Charts summarizing the Board's current commitments are attached (see Attachments A and B).

- a. The real estate investment strategy is to establish and maintain a broadly diversified real estate portfolio comprised of investments that provide overall diversification by property type and location. The main component of this portfolio consists of investments in diversified Real Estate Investment Trusts (REITs) and closed-end commingled funds. The remaining portion of the portfolio may include investments in less diversified, more focused (specialty) commingled funds and REITs.
- b. The private equity investment strategy, which includes leveraged buyouts and venture capital, is to establish and maintain a broadly diversified private equity portfolio comprised of investments that provide diversification by industry type, stage of corporate development and location.

- c. The strategy for resource investments is to establish and maintain a portfolio of resource investment vehicles that provide an inflation hedge and additional diversification. Resource investments will include oil and gas investments, energy service industry investments and other investments that are diversified geographically and by type.
- d. The strategy for yield-oriented investments is to target funds that typically provide a current return and may have an equity component such as subordinated debt or mezzanine investments. Yield-oriented investments will provide diversification by including investments in the private equity, resource and real estate categories.

ACTION ITEMS:

1) Investment with an existing private equity manager, The Banc Funds Company (Banc Funds), in Banc Fund IX, L.P. (Banc Fund IX)

Banc Funds is seeking investors for a new \$600 million private equity fund, Banc Fund IX. This fund is a successor to eight flagship private equity funds managed by Banc Funds. The SBI invested in five of the prior funds. Like the prior private equity funds, this fund will focus on investments in subregional banking and other financial institutions across the United States.

In addition to reviewing the attractiveness of the Banc Fund investment offering, staff has conducted on-site due diligence, reference checks, a literature database search and reviewed the potential investor base for the fund.

More information on the Banc Fund IX fund is included as Attachment C.

RECOMMENDATION:

The Investment Advisory Council concurs with staff's recommendation that the SBI authorize the Executive Director, with assistance from the SBI's legal counsel, to negotiate and execute a commitment of up to \$125 million, or 20% of Banc Fund IX, whichever is less. Approval by the SBI of this potential commitment is not intended to be, and does not constitute in any way, a binding or legal agreement or impose any legal obligations on the State Board of Investment and neither the State of Minnesota, the Investment Advisory Council, the State Board of Investment nor its Executive Director have any liability for reliance by Banc Funds upon this approval. Until the Executive Director on behalf of the SBI executes a formal agreement, further due diligence and negotiations may result in the imposition of additional terms and conditions on Banc Funds or reduction or termination of the commitment.

2) Investment with an existing resource manager, Merit Energy (Merit), in Merit Energy Partners I, L.P. (Merit I).

Merit is seeking investors for a new \$1 billion resource fund, Merit I. This fund is a successor to eight flagship resource funds managed by Merit. The SBI invested in six of the prior funds. Like the prior resource funds, Merit I will focus on acquiring and developing producing oil and gas properties in North America.

In addition to reviewing the attractiveness of the Merit I investment offering, staff has conducted on-site due diligence, reference checks, a literature database search and reviewed the potential investor base for the fund.

More information on the Merit I fund is included as **Attachment D**.

RECOMMENDATION:

The Investment Advisory Council concurs with staff's recommendation that the SBI authorize the Executive Director, with assistance from the SBI's legal counsel, to negotiate and execute a commitment of up to \$200 million, or 20% of Merit I, whichever is less. Approval by the SBI of this potential commitment is not intended to be, and does not constitute in any way, a binding or legal agreement or impose any legal obligations on the State Board of Investment and neither the State of Minnesota, the Investment Advisory Council, the State Board of Investment nor its Executive Director have any liability for reliance by Merit upon this approval. Until the Executive Director on behalf of the SBI executes a formal agreement, further due diligence and negotiations may result in the imposition of additional terms and conditions on Merit or reduction or termination of the commitment.

PRIVATE EQUITY MANAGER SUMMARY PROFILE

I. Background Data

Name of Fund:	Banc Fund IX L.P.
Type of Fund:	Private Equity Limited Partnership
Target Fund Size:	\$600 million
Fund Manager:	The Banc Funds Company, L.L.C.
Administrative Contact:	Charles J. Moore
	The Banc Funds Company
	20 North Wacker Drive, Suite 3300
	Chicago, IL 60606
	(312) 855-6202

II. Organization and Staff

The Banc Funds Company, L.L.C. ("TBFC"), registered as an investment advisor with the Securities and Exchange Commission since 1997, will be the investment advisor to Fund IX. The key personnel involved in managing Fund IX, all employees of TBFC, will be the same individuals who have managed Funds I, II, III, IV, V, VI, VII and VIII. These individuals are Charles J. Moore, John M. Baker, Richard H. Hein, Elizabeth J. Tyron, Jean T. Riggs, Thomas Ronczy, Gerald R. King, Ronald J. Peterson, and Mary P. Quinn. Fund management successfully identified the initial Midwest subregional bank investment opportunity for Fund I in 1986, expanded the concept to include savings & loan companies in 1991, added investments in other U.S. regions beginning in 1992, and have invested in other opportunities in related financial service sectors beginning in 1997. Fund Management will be responsible for the day-to-day operations of Fund IX, including researching, negotiating, making investments, and managing the Fund's portfolio. Fund Management has been responsible for investing \$3.7 billion across Funds I – VIII.

TBFC will also form a Valuation Committee, separate from Fund Management, consisting of individuals not employed by TBFC. The Valuation Committee will value the assets of Fund IX using valuation techniques similar to those used for Funds I – VIII, but in compliance with FASB ASC Topic 820 (formerly known as SFAS 157).

III. Investment Strategy

Banc Fund IX will invest in very small financial services companies in the U.S. which are inexpensively valued and have significant M&A opportunities. These companies present several value creation opportunities. First, the initial investment in these companies does not require a large premium. Second, these companies grow off a very small base. Third, because they are located in growth areas, they can build their customer bases and books of business. Fourth, as they get larger, they become more efficient and more profitable. Finally, their franchises have

value to acquirers who pay a premium to acquire their books of business while reducing duplicative costs.

Banc Fund IX will utilize the experience of its management team to capitalize upon these opportunities. Specifically, The Banc Funds can take advantage of current low valuations amongst financial services companies, its extensive knowledge of financial services, its relationships with bankers and intermediaries, its 27-year history of monitoring and investing in subregional depositories, and its work in identifying companies that are likely targets of strategic buyers paying takeover premiums.

IV. Investment Performance

Previous fund performance as of December 31, 2013 for The Banc Funds and the SBI's investments with previous funds, where applicable, is shown below:

Fund	Inception Date	Total Commitments	SBI Investment	Net IRR from Inception *	Net MOIC from Inception*

^{*} Previous Fund investments may be relatively immature and, therefore, returns may not be indicative of future results. Net IRR and Multiple of Invested Capital (MOIC) were provided by The Banc Funds.

V. General Partner's Investment

The General Partner will invest \$20 million in Banc Fund IX.

VI. Management Fees

Management fees are based on capital called, not committed capital. Fund IX LPs will pay an annual management fee equal to 5% of the first \$20 million of Fund IX's capital that is called; 1.79% of the next \$280 million of capital called, and 2% of amounts, if any, over \$300 million. When all capital is called, the management fee will be set at 2% of contributed capital.

VII. Distributions

On an annual basis, Fund IX will distribute net income and capital gains to its Partners. The Fund will not distribute any carried interest to the General Partner until the Limited Partners have received distributions equal to 100% of their contributed capital. Afterward, the General Partner shall collect 20% of capital gains, with the remaining 80% going to Limited Partners.

VIII. Investment Period and Term

Scheduled Fund IX wind-up will be December 31, 2023.

Fund IX will make investments during the first 8.5 years of its existence.

^{*} This document is a summary of more detailed information provided in the Confidential Private Placement Memorandum (the "PPM"). It is qualified in its entirety by the more detailed information provided in the PPM and any supplement thereto.

II. Organization and Staff

Merit Energy Company ("Merit") was formed in 1989 with a strategy that has been successful for 25 years: to acquire, operate and develop high quality, mature producing oil and gas properties. Merit has called \$3.5 billion of equity capital from its limited partners since inception. That \$3.5 billion has been used to purchase over \$6 billion of assets, and have generated over \$9 billion in net income. Merit has also distributed over \$8 billion to its partners, and currently has total assets with a book value of over \$4.6 billion. The partnerships have benefited from diverse portfolios of assets, with operations across North America. The large geographical footprint, along with a reserve mix of 71% oil and natural gas liquids (NGLs) and 29% natural gas, has given Merit valuable experience operating all types of assets in various environments.

Merit has a field staff of over 400 employees located in 11 field offices. In 25 years, Merit has produced 431 million barrels of oil equivalent (BOE) and has a current proved reserve base of 393 million BOE. In 2013, Merit's production averaged 64,000 BOE per day.

III. Investment Strategy

Merit's goal is to provide low-risk energy exposure and attractive long term returns to its partners. Merit intends to acquire, develop and operate mature, producing oil and gas properties. Currently Merit operates 86% of its assets, allowing them to control the pace of capital development and operating costs. This approach exploits Merit's principal strengths, places a high priority on control of physical operations, and has been successful in producing consistent, attractive overall returns for Merit's existing and prior funds.

Merit focuses on acquiring assets that fit its long-term operational profile which generates returns via production rather than attempting to "time the market." Merit maintains a long-term view towards efficient operations and concentrates on buying mature,

producing long-life assets. Merit is not constrained by deal size; Merit's recent acquisitions have ranged in value from \$1 million to over \$1 billion. Merit's large operational footprint across the U.S. allows them insight into opportunities to improve operations, reduce costs, and enhance development. Merit focuses on long reserve to production life ("R/P") assets with a development inventory that can be executed over an extended period of time to generate value and investment multiples; Merit does not seek a quick asset flip and exit.

Merit maintains a low risk approach to capital development, spending approximately 25% of its operating cash flow annually. Merit's annual capital programs emphasize drilling for proven reserves, wellbore recompletions, stimulations, and facility upgrades. Merit implements capital projects that are appropriate for the current operating environment and add the most long-term value over the life of our portfolio. Merit generally seeks to divest approximately 5-7% of their portfolio annually with assets that are either scattered from core operations or are not performing as expected. In addition, Merit regularly reviews their portfolio and considers strategic divestitures should market valuations be attractive. Merit's reputation, ability to close transactions, operational expertise, and integrity will continue to allow them to be competitive on deals they target. As an equity-driven company, Merit's ability to pay for assets with cash and close acquisitions quickly has proven to be a significant competitive advantage. Taking over field operations at the time of closing is another competitive advantage for Merit. Merit maintains a consistent presence in the acquisitions market and has a reputation as a credible and reliable buyer. Merit performs a rigorous due diligence process on each acquisition to fully understand the scope of the assets. In addition, Merit benefits from strong relationships with large, publicly traded oil and gas companies (the "majors"), large independents and private companies, as well as investment banks and asset brokers.

V. General Partner's Investment

The General Partner will commit 1% of the total non-LP committed capital in the Fund and will be obligated to directly invest 2% of the acquisition cost of oil and gas assets.

VII. Management Fee

The General Partner will receive an annual management fee of 1.25% on the greater of invested capital or book value up to the committed capital amount, and 1.00% on additional amounts (which may exceed the committed capital amount due to retained earnings).

VIII. Distributions

Cash distributions are made annually for each fiscal year during the investment period. Cash will be distributed (i) first, to the capital contributing partners in an amount not less than 6% of the lesser of called capital commitments or actual capital account, (ii) second, to the General Partner in an amount equal to the General Partner's carried interest (13% of annual profits, but only to the extent profits exceed the 8% preferred return to limited partners), and (iii) third, any cash not held for reinvestment in the discretion of the General Partner will be distributed to the capital contributing partners. After the expiration of the investment period, beginning no later than year ten, 100% of discretionary cash flow will be distributed to the partners quarterly in the priority described above with no hold back for reinvestment.

Allocations of profit will be made annually, generally as follows: (i) 100% to the capital contributing partners until they receive a cumulative 8% return, then (ii) 100% to the General Partner as a carried interest until it has received 13% of cumulative profits (after depletion) as a carried interest, then (iii) 87% to the capital contributing partners and 13% to the General Partner as a carried interest.

IX. Investment Period and Term

Generally, capital may be called for approximately six years.

The term of the Partnership is approximately 15 years, with termination of the Partnership on December 31, 2029 (unless terminated early as provided in the Partnership Agreement); provided, however, that the term can be extended for two 2-year periods upon the approval of the General Partner and a Majority Interest.
