Minutes State Board of Investment May 29, 2014

The State Board of Investment (SBI) met at 9:00 A.M. Thursday, May 29, 2014 in Room 112, State Capitol, St. Paul Minnesota. Governor Mark Dayton, State Auditor Rebecca Otto, Secretary of State Mark Ritchie and Attorney General Lori Swanson were present. The minutes of the March 4, 2014 meeting were approved.

Executive Director's Report

Mr. Perry, Executive Director, referred members to Tab A of the meeting materials. He reported that the Combined Funds had outperformed its Composite Index over the ten-year period ending March 31, 2014 (Combined Funds 8.0% vs. Composite 7.7%) and had provided a real rate of return over the latest 20-year period (Combined Funds 8.8% vs. CPI 2.4%).

Mr. Perry said that the Combined Funds' assets increased 1.1% for the quarter ending March 31, 2014 due to positive market performance. He said the asset mix was on target, and he stated that the Combined Funds matched its Composite Index for the quarter (Combined Funds 2.1% vs. Composite 2.1%), and outperformed for the year (Combined Funds 15.6% vs. 14.3%) and over longer periods.

Mr. Perry reported that the domestic stock manager group outperformed its target for the quarter (Domestic Stocks 2.1% vs. Target 2.0%), for the year (Domestic Stocks 24.1% vs. Target 22.6%) and most remaining time periods. He said the international stock manager group underperformed its target for the quarter (International Stocks 0.2% vs. Target 0.5%) but outperformed for the year (International Stocks 13.4% vs. Target 12.3%) and all remaining time periods. Mr. Perry stated that the bond segment outperformed its target for the quarter (Bonds 2.0% vs. Target 1.8%), for the year (Bonds 0.5% vs. Target -0.1%) and all remaining periods. He concluded his report with the comment that, as of March 31, 2014, the SBI was responsible for close to \$75 billion in assets under management.

Mr. Perry referred members to Tab B of the meeting materials and noted that the SBI recurring budget and travel expenses were in-line with expectations. He then gave a legislative update of issues relevant to the SBI. Mr. Perry stated that the merger of Duluth Teachers Retirement Fund Association into the Teachers Retirement Association had passed and he anticipated that the Duluth assets would be transferred to the SBI by calendar year end. Mr. Perry noted that the SBI had received legislative authority for greater investment option flexibility within the various state defined contribution plans as well as the Supplemental Investment Fund (SIF.)

Next, Mr. Perry discussed the Women's Economic Security Act, (WESA) which had been signed into law. He stated that the SBI sought and received an exemption from the pay equity certificate requirement of WESA for its Deferred Compensation Plan investment manager contracts. He noted that all other SBI contracts would need to comply with this requirement going forward. Mr. Perry stated that WESA also required that a study on the potential development of a state administered retirement savings plan be completed by Minnesota

Management and Budget (MMB.) The goal of such a savings plan would be to provide a retirement savings vehicle for employees in the state of Minnesota who had limited access to traditional savings methods. He noted that the SBI would work with MMB on the investment component of this study.

Mr. Perry shared that the SBI worked with the State Auditor's Office on a bill to enhance statewide OPEB reporting to the State Auditor's Office. He concluded Tab B by referring members to the Iran and Sudan updates and he noted there was no litigation at this time.

Mr. Perry then announced that Jim Heidelberg, current Assistant Executive Director, would be retiring in July 2014. Ms. Otto expressed appreciation to Mr. Heidelberg for his exemplary, long-term service to the state and noted that he would be missed.

Ms. Hacking referred members to Tab C and presented the report from the SBI Administrative Committee meeting of April 30, 2014 with four items for approval. She stated that Administrative Committee was recommending approval of the first item, the Executive Director's Proposed Workplan for FY 2015. There were no questions on the workplan.

Ms. Hacking also reviewed the SBI Budget Plans for FY14, FY15 and FY16 administrative budgets. She explained that the FY15 and FY16 budget requests represented large increases over previous years because of the request for five additional staff. Of the five additional staff. she noted that three would be investment professionals and two would be dedicated to the accounting area. She said that the Administrative Committee felt the staff increase was warranted because of the growth of assets under management and the greater complexity surrounding investments. She also noted that that Governmental Accounting Standards Board was requiring implementation of difficult and complex accounting standards, causing a need for increased accounting staff. Ms. Hacking stated that independent studies had previously concluded that the SBI was thinly staffed relative to peers. Ms. Hacking reminded the board that the funds requested were coming from the retirement systems, and all three retirement boards had already met and approved the additional SBI spending. She then requested the needed approval for the proposed workplan and budget. Mr. Ritchie moved adoption of the first two recommendations as stated in Tab C of the meeting materials which reads "The Committee recommends that the SBI approve the FY15 Executive Director's Workplan. Further, the Committee recommends that the Workplan serve as the basis for the Executive Director's performance evaluation for FY15. The Committee recommends that the SBI approve the FY14, FY15, and FY16 Administrative Budget Plan, as presented to the Committee, and that the Executive Director have the flexibility to reallocate funds between budget categories if the Executive Director deems necessary." After a brief discussion the motion passed.

Ms. Hacking introduced the third item for approval, the review of the Continuing Fiduciary Education Plan. She explained that it was straightforward and adopted annually, but required a separate motion. Mr. Ritchie moved adoption of recommendation three, as stated in Tab C of the meeting materials which reads "The Committee recommends that the SBI adopt the attached Continuing Fiduciary Education Plan". The motion passed.

Ms. Hacking introduced the final item for approval, the review of Executive Director's Evaluation and Salary Process. She recommended that the salary and review process be completed prior to the September 2014 SBI meeting. Mr. Ritchie moved adoption of recommendation four, as stated in Tab C of the meeting materials which reads "The Committee recommends that the SBI adopt the following process for the Executive Director's FY14 performance evaluation:

- The evaluation will be completed prior to the September 2014 meeting of the SBI and will be based on the results of the Executive Director's workplan for FY14.
- The SBI deputies/designees will develop an appropriate evaluation form for use by each member, which will reflect the categories in the Executive Director's position description and workplan.
- Governor's office will coordinate distribution and collection of the evaluation forms and will forward the completed forms to the Executive Director. Board members are encouraged to meet individually with the Executive Director to review their own evaluation." The motion passed.

Mr. Bailey then spoke on behalf of the Investment Advisory Council. He recommended that the SBI approve the termination of Turner Investments, L.P. He reviewed the rationale for termination, which included significant performance problems and high portfolio manager and analyst turnover at the firm. Ms. Otto moved approval of the recommendation, as stated in Tab D of the meeting materials, which reads "Due to significant staff departures, loss of firm assets and continued long- and short-term underperformance, staff and the IAC recommend that the SBI terminate the relationship with Turner Investments, L.P." The motion passed.

Mr. Bailey then relayed to the board key discussion items from the latest IAC meeting. First, Mr. Bailey discussed the manager vetting process within the IAC, and alternative investment managers in particular. He stated that going forward, the IAC's public and alternative assets manager-vetting process would focus on staffs' due diligence process. The IAC found this more beneficial than guest presentations from private equity managers. Second Mr. Bailey relayed that the IAC had a lengthy discussion on the unallocated portion of alternative investments, and that after much debate among IAC members, the current policy of holding the funds in fixed income was decided to be the most appropriate approach.

Mr. Bailey then referred members to Tab E of the meeting materials and briefly reviewed investments with one existing resource manager (Merit Energy) and one existing private equity manager (Banc Funds). Mr. Ritchie moved approval of both recommendations in Tab E of the meeting materials, which reads "The Investment Advisory Council concurs with staff's recommendation that the SBI authorize the Executive Director, with assistance from the SBI's legal counsel, to negotiate and execute a commitment of up to \$125 million, or 20% of Banc Fund IX, whichever is less. Approval by the SBI of this potential commitment is not intended to be, and does not constitute in any way, a binding or legal agreement or impose any legal obligations on the State Board of Investment and neither the State of Minnesota,

the Investment Advisory Council, the State Board of Investment nor its Executive Director have any liability for reliance by Banc Funds upon this approval. Until the Executive Director on behalf of the SBI executes a formal agreement, further due diligence and negotiations may result in the imposition of additional terms and conditions on Banc Funds or reduction or termination of the commitment."

"The Investment Advisory Council concurs with staff's recommendation that the SBI authorize the Executive Director, with assistance from the SBI's legal counsel, to negotiate and execute a commitment of up to \$200 million, or 20% of Merit I, whichever is less. Approval by the SBI of this potential commitment is not intended to be, and does not constitute in any way, a binding or legal agreement or impose any legal obligations on the State Board of Investment and neither the State of Minnesota, the Investment Advisory Council, the State Board of Investment nor its Executive Director have any liability for reliance by Merit upon this approval. Until the Executive Director on behalf of the SBI executes a formal agreement, further due diligence and negotiations may result in the imposition of additional terms and conditions on Merit or reduction or termination of the commitment. The motion passed.

Governor Dayton asked how the SBI evaluated managers given that performance between the best and worst performing managers varied by a wide margin. Mr. Bailey responded that past performance was only one of many factors taken into account during manager evaluation. He noted that the best evaluations focused on the manager's consistency with the investment philosophy and process that resulted in the initial hiring of the manager. Mr. Perry then commented that the SBI reviewed the manager's organization and performance and that five years was often too short of a time to know if a manager's value-add proposition was working. Mr. Ritchie asked if the SBI's rate of manager dismissal was appropriate. Mr. Bailey responded that because terminating managers is expensive, the SBI's patient approach with fewer terminations over time has served the State well. Ms. Otto confirmed the importance of the thoughtful approach to manager review and termination and she noted that the SBI's lower rate of manager turnover has resulted in the SBI being a more conservative, steady organization than many of its peers.

The meeting adjourned at 9:42 A.M.

Respectfully submitted,

Mansco Perry III Executive Director

FINANCIAL MARKETS REVIEW

DOMESTIC STOCKS

The U.S. stock market, as measured by the Russell 3000 index, posted a 4.9% return for the second quarter of 2014. The second quarter was marked by extremely low equity market volatility despite uneven economic performance, geopolitical tensions, and the ongoing reduction in asset purchases by the Fed. Within the Russell 3000, Energy was the best performing sector with a 12.2% return while Financial Services was the weakest with a 2.3% return for the quarter. Large capitalization stocks outperformed small cap during the quarter.

Performance of the Russell Style Indices for the quarter is shown below:

Large Growth	Russell 1000 Growth	5.1%
Large Value	Russell 1000 Value	5.1%
Small Growth	Russell 2000 Growth	1.7%
Small Value	Russell 2000 Value	2.4%

The Russell 3000 index returned 25.2% for the year ending June 30, 2014.

DOMESTIC BONDS

The U.S. bond market, as measured by the Barclays Capital U.S. Aggregate Bond Index, produced a total return of 2.0% for the quarter. Yields on shorter U.S. Treasuries declined during the quarter, while the long end increased. The 2-year U.S. Treasury ended the first quarter higher by 4 basis points at 0.5%, the 5-year decreased by 9 basis points to 1.6%, the 10-year decreased by 19 basis points to 2.5%, and the 30-year decreased by 20 basis points to 3.4%. Investment grade corporate bonds and agency MBS outperformed the benchmark during the quarter, while all other sectors underperformed the broader benchmark.

The major sector returns for the Barclays Capital U.S. Aggregate Bond Index for the quarter were:

U.S. Treasury	1.4%
Agency	1.5
Corporates	2.7
Agency MBS	2.4
Commercial Mortgages	1.3
Asset-backed	0.8

FINANCIAL MARKETS REVIEW

INTERNATIONAL STOCKS

In aggregate, developed international stock markets (as measured by the MSCI World ex U.S. index net) provided a return of 4.6% for the quarter. The quarterly performance of the six largest stock markets is shown below:

United Kingdom	6.1%
Japan	6.7
Canada	9.9
France	1.7
Germany	1.7
Switzerland	2.1

The World ex U.S. index returned 23.8% during the last year.

The World ex U.S. index is compiled by Morgan Stanley Capital International (MSCI) and is a measure of 22 markets located in Europe, Australasia, Far East, and Canada. The major markets listed above comprise about 73% of the value of the developed international markets in the index.

EMERGING MARKETS

Emerging markets (as measured by MSCI Emerging Markets Free index net) provided a return of 6.6% for the quarter. The quarterly performance of the six largest stock markets in the index is shown below:

China	5.5%
Korea	6.4
Taiwan	10.3
Brazil	7.5
South Africa	4.5
India	12.7

The Emerging Markets Free index returned 14.3% during the last year.

The Emerging Markets Free (EMF) index is compiled by MSCI and measures performance of 23 stock markets in Latin America, Asia, Africa and Eastern Europe. EMF includes only those securities foreign investors are allowed to hold. The markets listed above comprise about 71% of the value of the emerging international markets in the index.

REAL ESTATE

During the second quarter of 2014, real estate posted its 18th consecutive quarter of positive returns with the NCREIF Property Index posting a return of 2.9%. Real Estate markets have seen a healthy recovery since the 2008-2009 crash. Fundraising for private real estate funds remained strong in 2Q 2014, with total commitments of \$43 billion (Source: Preqin).

PRIVATE EQUITY

The ongoing moderate economic recovery, combined with a low interest rate environment and a record level of dry powder at \$1.1 trillion, continue to fuel investor demand for increasing private equity allocations. General Partners distributed capital back to Limited Partners at record levels in 2013, and so LPs are faced with finding appropriate ways to reinvest capital. This has driven an increase in private equity fundraising, reaching \$132 billion across a variety of strategies in 2Q 2014, up from \$104 billion in 1Q 2014 (Source: Preqin). Although the aggregate amount of capital has increased, the number of funds closed during the quarter remained low. Buyout activity in 2Q 14 increased over 1Q 2014; however the aggregate value of the deals was lower (\$80 billion vs. \$82 billion).

RESOURCE FUNDS

During the second quarter of 2014, crude oil traded between a range of \$99/bbl and \$107/bbl. The average price for the first quarter of 2014 was \$103/bbl, which is \$5 above the average price from the first quarter of 2014. Strong global energy demand and unrest in the Middle East continued to provide strength to oil prices.

COMBINED FUNDS

The comparison universe used by the SBI is the Trust Universe Comparison Service (TUCS). Only funds with assets over \$1 billion are included in the comparisons shown in this section.

Asset Mix Compared to Other Pension Funds

On 6/30/2014, the asset mix of the Combined Funds was:

	\$ Millions	%
Domestic Stocks	\$27,201	45.8%
International Stocks	9,303	15.7
Bonds	13,889	23.4
Alternative Assets	7,508	12.6
Unallocated Cash	1,549	2.6
Total	\$59,450	100.0%

Comparisons of the Combined Funds' asset mix to the median allocation to stocks, bonds and other assets of the public and corporate funds in TUCS over \$1 billion are shown below:

	Dom. Equity	Int'l Equity	Bonds	Alternatives	Cash
Combined Funds	45.8%	15.7%	23.4%	12.6%	2.6%
Median Allocation in TUCS*	30.3	12.4	23.7	9.5**	3.5

^{*} Public and corporate plans over \$1 billion.

^{**} May include assets other than alternatives.

COMBINED FUNDS Performance Compared to Other Pension Funds

While the SBI is concerned with how its returns compare to other pension investors, universe comparisons should be used with great care. There are several reasons why such comparisons will provide an "apples to oranges" look at performance:

- Differing Allocations. Asset allocation will have a dominant effect on return. The allocation to stocks among the funds in TUCS typically ranges from 20-90%, a very wide range for meaningful comparison. In addition, it appears that many funds do not include alternative asset holdings in their reports to TUCS. This further distorts comparisons among funds.
- Differing Goals/Liabilities. Each pension fund structures its portfolio to meet its own liabilities and risk tolerance. This will result in different choices on asset mix. Since asset mix will largely determine investment results, a universe ranking is not relevant to a discussion of how well a plan sponsor is meeting its long-term liabilities.

With these considerations in mind, the performance of the Combined Funds compared to other public and corporate pension funds in Trust Universe Comparison Service (TUCS) are shown below.

The SBI's returns are ranked against public and corporate plans with over \$1 billion in assets. All funds in TUCS report their returns gross of fees.

^{*} Compared to public and corporate plans greater than \$1 billion, gross of fees.

COMBINED FUNDS Performance Compared to Composite Index

The Combined Funds' performance is evaluated relative to a composite of market indices. The composite is weighted in a manner that reflects the asset allocation of the Combined Funds:

	Market Index	Combined Funds Composite* 2Q14
Domestic Stocks	Russell 3000	45.0%
Int'l. Stocks	MSCI ACWI Free ex-U.S.	15.0
Bonds	Barclays Capital Aggregate	25.4*
Alternative Investments	Alternative Investments	12.6*
Unallocated Cash	3 Month T-Bills	2.0
		100.0%

^{*} Alternative asset and fixed income weights are reset in the composite at the start of each month to reflect the amount of unfunded commitments in alternative asset classes. The above Combined Funds Composite weighting was as of the beginning of the quarter.

SUPPLEMENTAL INVESTMENT FUND

The Minnesota Supplemental Investment Fund is a multi-purpose investment program that offers a range of investment options to state and local public employees. The different participating groups use the Fund for a variety of purposes:

- It functions as the investment manager for all assets of the Unclassified Employees Retirement Plan, Public Employees Defined Contribution Plan, Hennepin County Supplemental Retirement Plan, and Health Care Savings Plan.
- It is one investment vehicle offered to employees as part of Minnesota State Colleges and University's Individual Retirement Account Plan and College Supplemental Retirement Plan.
- 3. It serves as an external money manager for a portion of some local police and firefighter retirement plans.
- 4. It serves as the investment vehicle for the Voluntary Statewide Volunteer Firefighter Plan.

A wide diversity of investment goals exists among the Fund's participants. In order to meet those needs, the Fund has been structured much like a "family of mutual funds." Participants may allocate their investments among one or more accounts that are appropriate for their needs, within the statutory requirements and rules established by the participating organizations. Participation in the Fund is accomplished through the purchase or sale of shares in each account.

The investment returns shown in this report are calculated using a time-weighted rate of return formula. All returns are net of investment management fees.

On 6/30/2014 the market value of the entire Fund was \$1.8 billion.

ASSIGNED RISK PLAN

Investment Objectives

The Assigned Risk Plan has two investment objectives: to minimize the mismatch between assets and liabilities and to provide sufficient liquidity for the payment of on-going claims and operating expenses.

Asset Mix

The Assigned Risk Plan is invested in a portfolio of common stocks and bonds. The actual asset mix will fluctuate in response to changes in the Plan's liability stream.

PERMANENT SCHOOL FUND

Investment Objectives

The investment objective of the Permanent School Fund is to produce a growing level of spendable income, within the constraints of maintaining adequate portfolio quality and liquidity. The income from the portfolio is transferred to the school endowment fund and distributed to Minnesota's public schools.

Asset Mix

Effective with FY98, the Permanent School Fund is invested in a balanced portfolio of common stocks and bonds. Common stocks provide the potential for significant capital appreciation, while bonds provide portfolio diversification and a more stable stream of current income.

STATE CASH ACCOUNTS

Description

State Cash Accounts represent the cash balances in more than 400 separate accounts that flow through the Minnesota State Treasury. These accounts vary greatly in size.

Most accounts are invested by SBI staff through a short-term pooled fund referred to as the Treasurer's Cash Pool. It contains the cash balances of special or dedicated accounts necessary for the operation of certain State agencies and non-dedicated cash in the State Treasury.

In addition, each State of Minnesota bond sale requires two additional pools, one for bond proceeds and one for debt reserve transfer.

Because of special legal restrictions, a small number of cash accounts cannot be commingled. These accounts are invested separately.

Investment Objectives Safety of Principal. To preserve capital.

Liquidity. To meet cash needs without the forced sale of securities at a loss.

Competitive Rate of Return. To provide a level of current income consistent with the goal of preserving capital.

Asset Mix

The SBI maximizes current income while preserving capital by investing all cash accounts in high quality, liquid, short-term investments. These include U.S. Treasury and Agency issues, repurchase agreements, bankers acceptances, commercial paper, and certificates of deposit.

Investment Management

All state cash accounts are managed by SBI investment staff. As noted above, most of the assets of the cash accounts are invested through the large commingled investment pool.

EXECUTIVE DIRECTOR'S ADMINISTRATIVE REPORT

DATE:

September 2, 2014

TO:

Members, State Board of Investment

FROM:

Mansco Perry III

1. Reports on Budget and Travel

A report on the SBI's administrative budget for the Fiscal Year 2014 is included as **Attachment A**.

A report on travel for the period from May 4, 2014 – June 30, 2014 is included as **Attachment B**.

2. Update on Sudan

Each quarter, staff provides a report to the Board on steps taken to implement *Minnesota Statutes*, section 11A.243 that requires SBI actions concerning companies with operations in Sudan. Staff receives periodic reports from the Conflict Risk Network (CRN) about the status of companies with operations in Sudan.

The SBI is restricted from purchasing stock in the companies designated as highest offenders by the CRN. Accordingly, staff updates the list of restricted stocks and notifies investment managers that they may not purchase shares in companies on the restricted list. Staff receives monthly reports from the SBI's custodian bank concerning SBI holdings of companies on the CRN list and writes letters as required by law.

According to the law, after 90 days following the SBI's communication, a company continues to have active business operations in Sudan, the SBI must divest holdings of the company according to the following schedule:

- at least 50% shall be sold within nine months after the company appeared on the Task Force list; and
- 100% shall be sold within fifteen months after the company appeared on the list.

In the second quarter, SBI managers divested 7,625 shares in companies on the divestment list.

Attachment C is a copy of the June 25, 2014 letter sent to each international equity manager and domestic equity manager containing the most recent restricted list and the list of stocks to be divested.

Attachment D is an updated list of companies with operations in Sudan.

3. Update on Iran

Each quarter, staff provides a report to the Board on steps taken to implement *Minnesota Statutes*, section 11A.244 that requires SBI actions concerning companies with operations in Iran.

SBI receives information on companies with Iran operations from IW Financial, through Glass Lewis. Staff receives monthly reports from the SBI's custodian bank concerning SBI holdings of companies on the restricted list and writes letters as required by the law.

According to the law, if after 90 days following the SBI's communication a company continues to have scrutinized business operations, the SBI must divest all publicly traded securities of the company according to the following schedule:

- at least 50% shall be sold within nine months after the company appeared on the scrutinized list; and
- 100% within fifteen months after the company appeared on the scrutinized list.

In the second quarter, SBI held no shares of companies on the divestment list.

Attachment E is a copy of the June 25, 2014 letter sent to each international equity manager and domestic equity manager and fixed income manager containing the end of quarter restricted list and the list of companies to be divested.

4. Update on 529 Plan

The SBI and the Minnesota Office of Higher Education (OHE) have completed a new five year contract with TIAA-CREF to provide administrative, marketing and investment services for the state's 529 College Savings Plan. The new investment structure increases the number of investment options from 12 to 19 and increases the age bands in the Managed Allocation Option from six to nine in an effort to give investors a more controlled, smoother reduction to their investment option's equity allocation. The new investment structure helps to significantly lower the overall plan fees and makes it more competitive in the national 529 plan market.

The roll-out of the new investment options and the reduced administrative fees began in August 2014. The Minnesota 529 plan is currently just over \$1 billion in assets.

5. Update on Closed Landfill Investment Fund

During the 1999 session, the Legislature created the Closed Landfill Investment Fund (CLIF). The CLIF was established to invest assets to pay the long-term costs of maintaining the integrity of closed landfills in Minnesota. The 100% equity asset allocation approved by the SBI for the CLIF was based on the long time horizon of the CLIF and a lack of any withdrawals needed from the fund until after fiscal year 2020.

In 2009, \$48 million in assets was transferred out of the CLIF fund as a result of legislation associated with the state's budget balancing plan; the CLIF ended fiscal year 2010 with less than \$1 million in assets. Given the significant reduction in the CLIF assets, discussions about moving the fund to a more balanced asset allocation was put on hold until such time as assets were transferred back into the fund per state statutes.

In August of 2014, the Commissioner of the Pollution Control Agency and the Commissioner of Minnesota Management and Budget notified the Executive Director of the State Board of Investment that assets transferred out of the fund in 2009 as well as any lost investment earnings were expected to be transferred back into the CLIF beginning July 1, 2014 and continuing into 2017. At the same time the Commissioners of the Pollution Control Agency and Minnesota Management and Budget requested that the SBI review the appropriateness of modifying the asset allocation for the CLIF from 100% equities to a more balanced asset allocation of 70% equities and 30% bonds.

The CLIF's objective is to produce spendable income beginning in 2020 and to grow the fund in order to maintain the real purchasing power of the fund. With assets expected to be transferred back into the CLIF over the coming years and a shorter time period horizon until withdrawals from the fund, the SBI staff believes that a 70% equity and 30% bond asset allocation would be more appropriate for the CLIF going forward. The long-term rate of return expected from this more balanced asset allocation could help reduce fund volatility and appropriately position the fund to meet the demand for annual, spendable income beginning in 2020, and the long-term growth needed to meet the objective of the fund.

RECOMMENDATION:

The Executive Director of the State Board of Investment recommends that the SBI authorize the change in the asset allocation of the CLIF to 70% equities and 30% bonds.

6. Litigation Update

SBI legal counsel will give the Board a verbal update on status of litigation at the Board meeting on September 9, 2014.

Letter to SBI International Equity and Domestic Equity Managers

June 25, 2014

Regarding: Sudan Companies

Dear Manager:

The Minnesota State Board of Investment (SBI) sent you prior communication concerning holdings in companies doing business in Sudan. This new communication applies to all SBI equity portfolios managed by your organization and replaces all prior communications. This communication also applies to all depository receipts or ADR's of any of the listed companies.

Minnesota Statutes, section 11A.243 requires the SBI to implement a Sudan restriction.

Attachment 1 is the List of Restricted Sudan Stocks. These securities <u>may not</u> <u>be purchased</u> for the SBI portfolio that your organization manages. If you own securities of companies on the Restricted List <u>and</u> the companies are <u>not</u> on the divestment list, then you do not need to sell your holdings. Please note that the attached List makes changes to the List of Restricted Sudan Companies that was attached to the March 17, 2014 letter you received. This new list is effective June 27, 2014.

• The following companies have been <u>added</u> to the Restricted List:

China Poly Group
 Poly Property Group
 China
 China

• The following companies have been <u>removed</u> from the Restricted List:

Avtodizel OAO Russia
 Tverskoy Excavator OJSC Russia

• Yaroclavsky Diesel Equipment Plan OAO Russia

Attachment 2 is the List of Sudan Stocks Requiring Divestment. The following company has been added to the divestment list:

• MAN SE Germany

If you own securities of companies on the List of Sudan Companies Requiring Divestment in the SBI portfolio that your organization manages, then you must <u>divest</u> those holdings according to the schedule provided in the Attachment:

- At least 50 percent of a company's holdings must be sold by the date indicated, and
- At least 100 percent of a company's holdings must be sold by the date indicated.

Attachment 3 is a list of security identifiers for the companies on the List of Restricted Sudan Stocks (Attachment 1) that your organization may use. The SBI does not represent that this is a complete list of identifiers. The manager is responsible for identifying all listings. Please note that the list of security identifiers may have information on companies not on the restricted list.

If you have any questions about this matter, please contact Tammy Brusehaver or Aaron Griga, Domestic Equities; Stephanie Gleeson, International Equities or me.

Sincerely,

LeaAnn M. Stagg Chief Operating Officer

Letter to SBI International Equity and Domestic Equity Managers

June 25, 2014

Regarding: Iran Companies

Dear Manager:

The Minnesota State Board of Investment (SBI) sent you prior communication concerning holdings in companies doing business in Iran. This new communication applies to all SBI equity portfolios managed by your organization and replaces all prior communications. This communication also applies to all depository receipts or ADR's of any of the listed companies.

Minnesota Statutes, section 11A.244, requires the Minnesota State Board of Investment (SBI) to implement an Iran restriction.

Attachment 1 is the List of Restricted Iran Companies. These securities <u>may</u> <u>not be purchased</u> for the SBI portfolio that your organization manages. If you own securities of companies on the Restricted List <u>and</u> the companies are <u>not</u> on the divestment list, then you do not need to sell your holdings. Please note that the attached List makes changes to the List of Restricted Iran Companies that was attached to the March 17, 2014 letter you received. This new list is effective June 27, 2014.

The following company has been added to the restricted list:

• Harbin Electric Company Ltd.

The following companies have been **removed** from the restricted list:

•	Gazprom OAO	Russia
•	GS Engineering & Construction Corp	South Korea
•	GS Holdings	South Korea
•	Ina-Industrija Nafte DD	Croatia
•	Punj Lloyd Ltd.	India

Attachment 2 is the List of Iran Companies Requiring Divestment. The following company has been **removed** from the divestment list:

Gazprom OAO

Russia

China

If you own securities of companies on the List of Iran Companies Requiring Divestment in the SBI portfolio that your organization manages, then you must <u>divest</u> those holdings according to the schedule provided in the Attachment:

- At least 50 percent of a company's holdings must be sold by the date indicated, and
- At least 100 percent of a company's holdings must be sold by the date indicated.

Attachment 3 is a list of security identifiers for the companies on the List of Restricted Iran Companies (Attachment 1) that your organization may use. The SBI does not represent that this is a complete list of identifiers. The manager is responsible for identifying all listings.

If you have any questions about this matter, please contact Aaron Griga or Tammy Brusehaver, Domestic Equity; Stephanie Gleeson, International Equity or me.

Sincerely,

LeaAnn M. Stagg Chief Operating Officer

Letter to SBI Fixed Income Managers

June 25, 2014

Regarding: Iran Companies

Dear Manager:

The Minnesota State Board of Investment (SBI) sent you prior communication concerning holdings in companies doing business in Iran. This communication applies to the SBI fixed income portfolio managed by your organization.

Minnesota Statutes, section 11A.244, requires the Minnesota State Board of Investment (SBI) to implement an Iran restriction.

Attachment 1 is the List of Restricted Iran Companies. These securities <u>may</u> not be <u>purchased</u> for the SBI portfolio that your organization manages. If you own securities of companies on the Restricted List <u>and</u> the companies are <u>not</u> on the divestment list, then you do not need to sell your holdings. Please note that the attached List makes changes to the List of Restricted Iran Companies that was attached to the March 17, 2014 letter you received. This new list is effective June 27, 2014.

The following company has been <u>added</u> to the restricted list:

Harbin Electric Company Ltd.

The following companies have been **removed** from the restricted list:

•	Gazprom OAO	Russia
	GS Engineering & Construction Corp	South Korea
•	GS Holdings	South Korea
•	Ina-Industrija Nafte DD	Croatia
•	Punj Lloyd Ltd.	India

Attachment 2 is the List of Iran Companies Requiring Divestment. The following company has been <u>removed</u> from the divestment list:

Gazprom OAO
 Russia

If you own securities of companies on the List of Iran Companies Requiring Divestment in the SBI portfolio that your organization manages, then you must <u>divest</u> those holdings according to the schedule provided in the Attachment:

- At least 50 percent of a company's holdings must be sold by the date indicated, and
- At least 100 percent of a company's holdings must be sold by the date indicated.

If you have any questions about this matter, please contact Tammy Brusehaver, Manager, Long-Term Debt or me.

Sincerely,

LeaAnn M. Stagg Chief Operating Officer

Investment Philosophy

Through the application of a proprietary mathematical process, the investment strategy is designed to determine more efficient weightings of the securities within the Russell 1000 Growth benchmark. specific sector or security selection decisions based on fundamentals are required. Risk parameters include: 1) minimize absolute standard deviation or maximize information ratio, 2) security positions limited to lesser of 2.5% or 10 times maximum index security weight, and 3) beta equal to or less than benchmark beta. Target security positions are established using an optimization routine designed to build a portfolio that will outperform a passive benchmark over the long term. Rebalancing to target proportions occurs every six (6) business days, and partial re-optimization occurs weekly.

SANDS CAPITAL MANAGEMENT, LLC Periods Ending June, 2014

Portfolio Manager: Frank Sands, Jr.

Assets Under Management: \$649,408,430

Investment Philosophy

The manager invests in high-quality, seasoned and growing businesses. Bottom-up, company-focused, long-term oriented research is the cornerstone of the investment process. The strategy focuses on six (6) key investment criteria: 1) sustainable above average earnings growth; 2) leadership position in a promising business space; 3) significant competitive advantages or unique business franchise; 4) management with a clear mission and value added focus; 5) financial strength; and 6) rational valuation relative to the overall market and the company's business prospects.

Staff Comments

Sands has been consistent with their investment process, and the organization remains stable. The portfolio underperformed significantly during the quarter due to negative stock selection in Healthcare and Technology. The outperformance for the year is attributed to positive stock selection in Consumer Discretionary and Technology sectors.

WINSLOW CAPITAL MANAGEMENT, LLC Periods Ending June, 2014

Portfolio Manager: Justin Kelly and Patrick Burton

Assets Under Management: \$285,669,854

Investment Philosophy

The strategy identifies companies that can grow earnings above consensus expectations to build portfolios with forward weighted earnings growth in the range of 15-20% annually. A quantitative screen is employed for factors such as revenue and earnings growth, return on invested capital, earnings consistency, earnings revisions, low financial leverage and high free cash flow rates relative to net income. Resulting companies are subjected to a qualitative assessment within the context of industry sectors. Detailed examination of income statements, cash flow and balance sheet projections is conducted, along with a judgment on the quality of management. Attractively valued stocks are chosen based on P/E relative to the benchmark, sector peers, the company's sustainable future growth rate and return on invested capital. Final portfolio construction includes diversification by economic sectors, earnings growth rates, price/earnings ratios and market capitalizations.

ZEVENBERGEN CAPITAL INVESTMENTS LLC Periods Ending June, 2014

Portfolio Manager: Nancy Zevenbergen Assets Under Management: \$620,149,722

Investment Philosophy

Zevenbergen is an equity growth manager. The investment philosophy is based on the belief that earnings drive stock prices while quality provides capital protection. Hence, portfolios are constructed with companies showing above-average earnings growth prospects and strong financial characteristics. They consider diversification for company size, expected growth rates and industry weightings to be important risk control factors. Zevenbergen uses a bottom-up fundamental approach to security analysis. Research efforts focus on finding companies with superior products or services showing consistent profitability. Attractive buy candidates are reviewed for sufficient liquidity and potential diversification. The firm emphasizes that they are not market timers.

Staff Comments

Zevenbergen has been consistent with their investment process, and the organization remains stable. For the year, positions in Tesla Motors and Netflix attributed to the majority of outperformance. The significant outperformance for the year is not a concern due to the expected higher tracking error, or active risk, for this portfolio.

BARROW, HANLEY, MEWHINNEY & STRAUSS, INC. Periods Ending June, 2014

Portfolio Manager: Tim Culler Assets Under Management: \$793,372,266

Investment Philosophy

The manager's approach is based on the underlying philosophy that markets are inefficient. Inefficiencies can best be exploited through adherence to a value-oriented investment process dedicated to the selection of securities on a bottom-up basis. The team does not attempt to time the market or rotate in and out of broad market sectors.

The manager remains fully invested with a defensive, conservative orientation based on the belief that superior returns can be achieved while taking below average risks. This strategy is implemented by constructing portfolios of individual stocks that exhibit price/earnings and price/book ratios significantly *below* the market and dividend yields significantly *above* the market. Risk control is achieved by limiting sector weights to 35% and industry weights to 15%. In periods of economic recovery and rising equity markets, profitability and earnings growth are rewarded by the expansion of price/earnings ratios and the generation of excess returns.

EARNEST PARTNERS Rolling Five Year Returns Compared to Benchmark

Five Year Period Ending

Note: Area to left of vertical line includes performance prior to retention by the SBI.

Portfolio Manager: Josef Lakonishok

Assets Under Management: \$799,993,720

Investment Philosophy

The fundamental premise on which LSV's investment philosophy is based is that superior long-term results can be achieved by systematically exploiting the judgmental biases and behavioral weaknesses that influence the decisions of many investors. These include: the tendency to extrapolate the past too far into the future, wrongly equating a good company with a good investment irrespective of price, ignoring statistical evidence and developing a "mindset" about a company.

The strategy's primary emphasis is the use of quantitative techniques to select individual securities in what would be considered a bottom-up approach. Value factors and security selection dominate sector/industry factors as explanatory variables of performance. The competitive strength of this strategy is that it avoids introducing to the process any judgmental biases and behavioral weaknesses that often influence investment decisions.

SYSTEMATIC FINANCIAL MANAGEMENT, L.P. Periods Ending June, 2014

Portfolio Manager: Kevin McCreesh

Assets Under Management: \$750,260,503

Investment Philosophy

Systematic's investment strategy favors companies with low forward P/E multiples and a positive earnings catalyst. Cash flow is analyzed to confirm earnings and to avoid companies that may have employed accounting gimmicks to report earnings in excess of Wall Street expectations. The investment strategy attempts to avoid stocks in the "value trap" by focusing only on companies with confirmed fundamental improvement as evidenced by a genuine positive earnings surprise.

The investment process begins with quantitative screening that ranks the universe based on: 1) low forward P/E, and 2) a positive earnings catalyst, which is determined by a proprietary 16-factor model that is designed to be predictive of future positive earnings surprises. The screening process generates a research focus list of 150 companies, sorted by sector, upon which rigorous fundamental analysis is conducted to confirm each stock's value and catalysts for appreciation.

MCKINLEY CAPITAL MANAGEMENT, LLC. Periods Ending June, 2014

Portfolio Manager: Robert A. Gillam Assets Under Management: \$389,153,774

Investment Philosophy

The team believes that excess market returns can be achieved through the construction and management of a diversified, fundamentally sound portfolio of inefficiently priced securities whose earnings growth rates are accelerating above market expectations. Using proprietary quantitative models, the team systematically searches for and identifies early signs of accelerating growth. The initial universe consists of growth and value stocks from all capitalization categories.

The primary model includes a linear regression model to identify common stocks that are inefficiently priced relative to the market while adjusting each security for standard deviation. The ratio of alpha to standard deviation is the primary screening value and is used to filter out all but the top 10% of stocks in its initial universe. The remaining candidates are tested for liquidity and strength of earnings. In the final portfolio construction process, qualitative aspects are examined, including economic factors, Wall Street research, and specific industry themes.

Staff Comments

NEXT CENTURY GROWTH INVESTORS, LLC Periods Ending June, 2014

Portfolio Manager: Thomas Press and Don Longlet

Assets Under Management: \$363,527,740

Investment Philosophy

Next Century Growth's (NCG) goal is to invest in the highest quality and fastest growing companies in America. They believe that growth opportunities exist regardless of the economic cycle. NCG uses fundamental analysis to identify companies that will surpass consensus earnings estimates, which they believe to be the number one predictor of future outperformance. Their investment process focuses on growth companies that have superior top line revenue growth (15% or greater), high profitability, and strong balance sheets, and are well poised to outperform the market. NCG believes in broad industry diversification; sector exposures are limited to twice the benchmark weighting and individual positions to five percent.

Staff Comments

Staff met with Next Century during the quarter.

Next Century's quarter and one year performance was negatively affected by holdings in their portfolio with the highest growth characteristics, which underperformed the benchmark. Also, the portfolio had less exposure to companies that performed well during this time period vs. benchmark. Next Century is considering tightening their sector weightings relative to the index in an effort to reduce the volatility in their returns.

Staff is closely monitoring Next Century and any changes to the investment process.

Investment Philosophy

The firm's value equity philosophy is based on the belief that all successful investing begins with fundamental stock selection that should thoughtfully weigh a stock's price and prospects. A company's prospective ability to generate high cash flow returns on capital will strongly influence investment success. The team follows a strong valuation discipline to purchase well-positioned, cash generating businesses run by shareholder-oriented management teams.

Through extensive proprietary research, the team confirms that a candidate company's long-term competitive advantage and earnings power are intact. The team seeks to purchase a stock at a price that encompasses a healthy margin of safety. The investment process involves three steps: 1) prioritizing research, 2) analyzing fundamentals, and 3) portfolio construction. The independent Risk and Performance Analytics Group (RPAG) monitors daily portfolio management risk, adherence to client guidelines and general portfolio strategy.

HOTCHKIS & WILEY CAPITAL MANAGEMENT Periods Ending June, 2014

Portfolio Manager: Jim Miles and David Green

Assets Under Management: \$251,929,135

Investment Philosophy

The firm seeks to exploit mispriced securities in the small cap market by investing in "undiscovered" or "out of favor" companies. The team invests in stocks where the present value of the company's future cash flows exceeds the current market price. This approach exploits equity market inefficiencies created by irrational investor behavior and lack of Wall Street research coverage of smaller capitalization stocks. The team employs a disciplined, bottom-up investment process that emphasizes internally generated fundamental research.

The investment process begins with a quantitative screen based on market capitalization, trading liquidity and enterprise value/normalized EBIT, supplemented with ideas generated from the investment team. Internal research is then utilized to identify the most attractive valuation opportunities within this value universe. The primary focus of the research analyst is to determine a company's "normal" earnings power, which is the basis for security valuation.

MARTINGALE ASSET MANAGEMENT, L.P. Periods Ending June, 2014

Portfolio Manager: William Jacques

Assets Under Management: \$214,120,797

Investment Philosophy

Martingale's investment process seeks to exploit the long-term link between undervalued company fundamentals and current market prices to achieve superior investment returns. Martingale has a long history of employing sound quantitative methods.

The valuation process is comprised of well-researched valuation indicators that have stood the test of time, with improvements made only after careful evaluation, testing and analysis. Multiple characteristics of quality, value and momentum are examined. The quality of company management is assessed by reviewing commitment to R&D, accounting practices with regard to earnings and cash flow from operations, and the ability to manage inventory.

The average holding period of a stock is typically one year. Every holding is approached as an investment in the business, with the intention of holding it until either objectives are reached, or it becomes apparent that there are better opportunities in other stocks.

PEREGRINE CAPITAL MANAGEMENT, INC Periods Ending June, 2014

Portfolio Manager: Doug Pugh and Tasso Coin

Assets Under Management: \$355,312,908

Investment Philosophy

Peregrine's Small Cap Value investment process begins with the style's proprietary valuation analysis, which is designed to identify the small cap value stocks most likely to outperform. The valuation analysis identifies the most under-priced securities on a sector-by-sector Drawing on thirty years of data, the analysis looks at different combinations of sixty fundamental factors most relevant in each independent sector to identify stocks that offer significant value relative to the companies' underlying fundamentals. The focus of the team's fundamental research is to determine if one or more of the style's "Value Buy Criteria" are present. These include short-term problems, unrecognized assets, take-over potential, and catalysts for change. portfolio is diversified and sector weights are aligned closely with the benchmark. This allows stock selection to drive performance.

Investment Philosophy - Semi-Passive Style

The Core Alpha Model disaggregates individual equity returns for each of the 3500 stocks in their universe into fundamental, expectational, and technical components. The fundamental factors look at measures of underlying company value including earnings, book value, cash flow, and sales. These factors help identify securities that trade at prices below their true economic value. The expectational factors incorporate future earnings and growth rate forecasts made by over 2500 security analysts. The technical factors provide a measure of recent changes in company fundamentals, consensus expectations, and performance. Estimated alphas are then calculated and are used in a portfolio optimization algorithm to identify the optimal portfolio.

Portfolio Manager: Adrian Banner

Assets Under Management: \$2,589,907,963

Investment Philosophy - Semi-Passive Style

Through the application of a proprietary mathematical process, the investment strategy is designed to determine more efficient weightings of the securities within the Russell 1000 benchmark. No specific sector or security selection decisions based on fundamentals are required. Risk parameters include: 1) minimize absolute standard deviation or maximize information ratio, 2) security positions limited to lesser of 1.0% or 8 times maximum index security weight, 3) beta equal to or less than benchmark beta, and 4) constraining the weighted average capital distribution to be roughly equal to the capital distribution of the benchmark. Target security positions are established using a weekly optimization routine designed to build a portfolio that will outperform a passive benchmark over the long term. Rebalancing to target proportions occurs every six (6) business days.

Portfolio Manager: Ralph Zingone Assets Under Management: \$3,038,957,789

Investment Philosophy - Semi-Passive Style

J.P. Morgan believes that superior stock selection is necessary to achieve excellent investment results. To accomplish this objective, they use fundamental research and a systematic valuation model. Analysts forecast the earnings and dividends for the 650 stock universe and enter them into a stock valuation model that calculates an expected return for each security. The stocks are ranked according to their expected return within their economic sectors. The most undervalued stocks are placed in the first quintile. The portfolio includes stocks from the first four quintiles, always favoring the highest ranked stocks whenever possible. Stocks in the fifth quintile are sold. In addition, the portfolio closely approximates the sector, style, and security weightings of the index chosen by the plan sponsor. The firm remains fully invested at all times.

Portfolio Manager: Warren Chiang

Assets Under Management: \$2,728,530,535

Investment Philosophy - Semi-Passive Style

Mellon believes that rigorous and consistent application of fundamentally based valuation criteria will produce value added investment returns. Mellon builds a portfolio by using a series of more than 30 integrated computer models that value a universe of 3500 stocks. Their models rank each security based on fundamental momentum, relative value, future cash flow, and supplementary models. A composite ranking then provides one ranked list of securities reflecting their relative attractiveness. Stocks that fall below the median ranking are sold, and proceeds are reinvested in stocks from the top deciles in the ranking system. They use the BARRA risk model to monitor the portfolio's systematic risk and industry weightings relative to the selected benchmark. For this semi-passive mandate, they seek to achieve a residual risk of 1.5% or less. The firm remains fully invested at all times.

Investment Philosophy - Passive Style

BlackRock seeks to minimize 1) tracking error, 2) transaction costs, and 3) investment and operational risks. The portfolio is passively managed against the asset class target using a proprietary optimization process that integrates a transaction cost model. The resulting portfolio closely matches the characteristics of the benchmark with less exposure to illiquid stocks.

ABERDEEN ASSET MANAGEMENT INC. Periods Ending June, 2014

Portfolio Manager: Neil Moriarty Assets Under Management: \$1,089,812,825

Investment Philosophy

Aberdeen (formerly Deutsche) believes there are pricing inefficiencies inherent in bond markets and that diligent credit analysis, security structure evaluation, and relative value assessment can be used to exploit these inefficiencies. The firm avoids interest rate forecasting and sector rotation because they believe these strategies will not deliver consistent outperformance versus the benchmark over time. The firm's valued added is derived primarily from individual security selection. Portfolio managers and analysts research bonds within their sector of expertise and construct portfolios from the bottom-up, bond by bond. Sector weightings are a byproduct of the bottom-up security selection. Aberdeen was retained by the SBI in February 2000.

Portfolio Manager: Dana Emery

Assets Under Management: \$1,508,303,076

Investment Philosophy

Dodge & Cox manages a high quality, diversified portfolio of securities that are selected through fundamental analysis. The firm believes that by combining fundamental research with a long-term investment horizon it is possible to uncover inefficiencies in market sectors and individual securities. The firm combines this fundamental research with a disciplined program of risk analysis. To seek superior returns over the long-term, Dodge & Cox emphasizes sector and security selection, strives to build portfolios that have a higher yield than the broad bond market, and analyzes portfolio and individual security risk. Dodge & Cox was retained by the SBI in February 2000.

PACIFIC INVESTMENT MANAGEMENT COMPANY LLC (PIMCO) Periods Ending June, 2014

Portfolio Manager: Bill Gross

Assets Under Management: \$1,582,146,222

Investment Philosophy

PIMCO's investment approach seeks to outperform a client's benchmark on a consistent basis, while maintaining overall risk similar to the index. PIMCO's approach to investing has three key principles: the utilization of multiple strategies, a long-term orientation and bond selection from a broad universe. PIMCO's investment process starts with an annual Secular Forum. The goal of this Forum is to look beyond the current business cycle and determine how secular forces will play out over the next 3 to 5 years. Quarterly, PIMCO holds Economic Forums to evaluate growth and inflation over the next 6 to 9 months. PIMCO's Secular and Economic Forums, the PIMCO Investment Committee (IC) develops key portfolio They consider both the "top-down" conclusions emanating from PIMCO's Forum, as well as the "bottom-up" market intelligence provided by PIMCO's teams of sector specialist portfolio managers. Through an interactive series of meetings, the IC defines a set of consistent strategies that are then implemented. PIMCO was retained by the SBI in September 2008.

PIMCO has requested to transition the primary portfolio manager from Bill Gross to Saumil Parikh at the end of the third quarter. Saumil is a Managing Director, Generalist Portfolio Manager, and permanent member of PIMCO's Investment Committee. Staff has previously met with Saumil, has reviewed information from PIMCO, and is comfortable transitioning him to primary portfolio manager.

Mohammed El-Erian, Chief Executive Officer and Co-Chief Investment Officer, resigned from PIMCO in March 2014. Although Mr. El-Erian was not the Portfolio Manager for the SBI portfolio, he was a member of PIMCO's Investment Committee. A new CEO and six deputy CIOs were named following Mr. El-Erian's resignation. In addition, PIMCO created and filled the new position of President.

WESTERN ASSET MANAGEMENT COMPANY Periods Ending June, 2014

Portfolio Manager: Ken Leech Assets Under Management: \$1,609,245,310

Investment Philosophy

Western emphasizes the use of multiple strategies and active sector and issue selection, while constraining interest rate risk. Multiple strategies are proportioned so that results do not depend on one or two opportunities. This approach adds consistent value over time and can reduce volatility. Long-term value investing is Western's fundamental approach. In making their sector decision, the firm seeks out the greatest long-term value by analyzing all fixed income market sectors and their economic expectations. Individual issues are identified based on relative credit strength, liquidity, issue structure, event risk, and market valuation. Western believes that successful interest rate forecasting is extremely difficult and consequently keeps portfolio duration within a narrow band around the benchmark. Western was retained by the SBI in July 1984.

Staff Comments

Steve Walsh, CIO, retired in March 2014. Ken Leech, who previously served as Western's co-CIO with Mr. Walsh from 1998 to 2008, was named CIO. Western reached settlements with the SEC and U.S. Department of Labor relating to two investigations into certain fixed income trades. In reaching the settlements, Western neither confirmed nor denied the allegations. The SBI portfolio was not affected by the trades or the settlement.

BLACKROCK FINANCIAL MANAGEMENT Periods Ending June, 2014

Portfolio Manager: Akiva Dickstein

Assets Under Management: \$1,910,951,065

Investment Philosophy

BlackRock manages an enhanced index portfolio closely tracking the Barclays Capital U.S. Aggregate Bond Index. The firm's enhanced index strategy is a controlled-duration, sector rotation style, which can be described as active management with tighter duration, sector, and quality constraints. BlackRock seeks to add value through: (i) controlling portfolio duration within a narrow band relative to the benchmark, (ii) relative value sector/sub-sector rotation and security selection, (iii) rigorous quantitative analysis to the valuation of each security and of the portfolio as a whole, (iv) intense credit analysis and review, and (v) the judgment of experienced portfolio managers. Advanced risk analytics measure the potential impact of various sector and security strategies to ensure consistent value added and controlled volatility. BlackRock was retained by the SBI in April 1996.

Staff Comments

Staff met with BlackRock during the quarter to meet Akiva Dickstein, who is the current portfolio manager. Mr. Dickstein, Head of Mortgages, replaced Brian Weinstein, who resigned from BlackRock in June 2014. Staff is comfortable with this change.

BlackRock has also expanded its Executive Leadership team and hired Barry Knapp as Head of Thematic Strategies within the Americas Fixed Income group.

GOLDMAN SACHS ASSET MANAGEMENT Periods Ending June, 2014

Portfolio Manager: Mike Goosay

Assets Under Management: \$2,549,612,014

Investment Philosophy

Goldman manages an enhanced index portfolio closely tracking the Barclays Capital U.S. Aggregate Bond Index. Goldman's process can be viewed as active management within a very risk-controlled framework. The firm relies primarily on sector allocation and security selection strategies to generate incremental return. To a lesser degree, term structure strategies are also implemented. Goldman combines long-term strategic investment tilts with short-term tactical trading opportunities. Strategic tilts are based on fundamental and quantitative sector research and seek to optimize the long-term risk/return profile of portfolios. trades between sectors and securities within sectors are implemented to take advantage of short-term market anomalies. Goldman was retained by the SBI in July 1993.

Portfolio Manager: Andrew Johnson

Assets Under Management: \$2,526,206,645

Investment Philosophy

Neuberger (formerly Lincoln) manages an enhanced index portfolio closely tracking the Barclays Capital U.S. Aggregate Bond Index. Neuberger's process relies on a combination of quantitative tools and active management judgment. Explicit quantification and control of risks are at the heart of their process. Neuberger uses proprietary risk exposure measures to analyze 24 interest rate factors, and over 30 spreadrelated factors. For each interest rate factor, the portfolio is very closely matched to the index to ensure that the portfolio earns the same return as the index for any change in interest rates. For each spread factor, the portfolio can deviate slightly from the index as a means Setting target active risk of seeking value-added. exposures that must fall within pre-established maximums controls risk. ACADIAN ASSET MANAGEMENT, LLC Periods Ending June, 2014

Portfolio Manager: John

John Chisholm

Assets Under Management: \$400,653,859

Investment Philosophy

Acadian believes there are inefficiencies in the global equity markets that can be exploited by a disciplined quantitative investment process. In evaluating markets and stocks. Acadian believes it is most effective to use a range of measures, including valuation, price trends, financial quality and earnings information. Risk control is a critical part of the Acadian approach. Acadian's process seeks to capture value-added at both the stock and the sector/country level. The process is active and bottom-up, but each stock forecast also contains a sector/country forecast. Selection is made from a very broad investment universe using disciplined, factordriven quantitative models. Portfolios are constructed with an optimizer and are focused on targeting a desired level of active risk relative to a client's chosen benchmark index.

COLUMBIA MANAGEMENT INVESTMENT ADVISERS, LLC Periods Ending June, 2014

Portfolio Manager: William Davies

Assets Under Management: \$359,391,394

Investment Philosophy

Columbia's philosophy focuses on key forces of change in markets and the companies that will benefit. The firm believes that in a global marketplace, where sustainable competitive advantage is rare, their research should focus on the dynamics of change. A good understanding of the likely impact of these changes at a company level, complemented with an appreciation of the ability of management to exploit these changes, creates significant opportunities to pick winners and avoid losers.

J.P. MORGAN INVESTMENT MANAGEMENT INC. Periods Ending June, 2014

Portfolio Manager: James Fisher Assets Under Management: \$317,046,415

Investment Philosophy

JP Morgan's international equity strategy seeks to add value through active stock selection, while remaining diversified by both sector and region. The portfolio displays a large capitalization size bias and a slight growth orientation. Stock selection decisions reflect the insights of approximately 150 locally based investors, ranking companies within their respective local markets. The most attractive names in each region are then further validated by a team of Global Sector Specialists who seek to take the regional team rankings and put these into a global context. The team of six senior portfolio managers draws together the insights of both the regional and global specialists, constructing a portfolio of the most attractive names.

MARATHON ASSET MANAGEMENT LLP Periods Ending June, 2014

Portfolio Manager: William Arah

Assets Under Management: \$791,745,743

Investment Philosophy

Marathon uses a blend of flexible, qualitative disciplines to construct portfolios which exhibit a value bias. Style and emphasis will vary over time and by market, depending on Marathon's perception of lowest risk opportunity. Since they believe that competition determines profitability, Marathon is attracted to industries where the level of competition is declining and they will hold a sector position as long as the level of competition does not increase. At the stock level, Marathon tracks a company's competitive position versus the attractiveness of their products or services and attempts to determine whether the company is following an appropriate reinvestment strategy for their current competitive position.

MCKINLEY CAPITAL MANAGEMENT LLC Periods Ending June, 2014

Portfolio Manager: Robert A. Gillam

Assets Under Management: \$317,217,028

Investment Philosophy

At McKinley Capital, investment decisions are based on the philosophy that excess market returns can be achieved through the construction and active management of a diversified, fundamentally sound portfolio of inefficiently priced common stocks whose earnings growth rates are accelerating above market expectations. A disciplined quantitative investment process drives all product strategies. The firm can be described as a bottom-up growth manager. employ both a systematic screening process and a qualitative overview to construct and manage portfolios. Investment ideas are initially generated by the quantitative investment process. The balance of the qualitative overlay seeks to identify securities with earnings estimates that are reasonable and sustainable. All portfolios managed by McKinley Capital use the same investment process and construction methodology to manage portfolios.

PYRAMIS GLOBAL ADVISORS TRUST COMPANY (Active) Periods Ending June, 2014

Portfolio Manager: Chris Steward & Brian Hoesly

Assets Under Management: \$370,551,226

Investment Philosophy

Pyramis' International Growth is a core, growth-oriented strategy that provides diversified exposure to the developed international markets. The investment process combines active stock selection and regional asset allocation. Four portfolio managers in London, Tokyo, Hong Kong, Smithfield Rhode Island, and Toronto construct regional sub-portfolios, selecting stocks based on Fidelity analysts' bottom-up research and their own judgment and expertise. Portfolio guidelines seek to ensure risk is commensurate with the performance target and to focus active risk on stock selection. Resulting portfolios typically contain between 200-250 holdings.

PYRAMIS GLOBAL ADVISORS TRUST CO. - INTL GROWTH Rolling Five Year Returns Compared to Benchmark

CAPITAL INTERNATIONAL, INC. Periods Ending June, 2014

Portfolio Manager: Victor Kohn Assets Under Management: \$769,146,789

Investment Philosophy

Capital International's philosophy is value-oriented, as they focus on identifying the difference between the underlying value of a company and the price of its securities in its home market. Capital International's basic, fundamental, bottom-up approach is blended with macroeconomic and political judgments on the outlook for economies, industries, currencies and markets. The team of portfolio managers and analysts each select stocks for the portfolio based on extensive field research and direct company contact.

MORGAN STANLEY INVESTMENT MANAGEMENT INC. Periods Ending June, 2014

Portfolio Manager: Ruchir Sharma Assets Under Management: \$847,013,571

Investment Philosophy

Morgan Stanley's style is core with a growth bias. They follow a top-down approach to country allocation and a bottom-up approach to stock selection. Morgan Stanley's macro-economic and stock selection analyses are qualitative as well as quantitative, concentrating on fundamentals. Their top-down analysis highlights countries with improving fundamentals and attractive valuations. Their bottom-up approach to stock selection focuses on purchasing companies with strong operating earnings potential at attractive valuations.

MORGAN STANLEY INVESTMENT MANAGEMENT Rolling Five Year Returns Compared to Benchmark

AQR CAPITAL MANAGEMENT, LLC Periods Ending June, 2014

Portfolio Manager: Cliff Asness Assets Under Management: \$366,175,905

Investment Philosophy

AQR employs a disciplined quantitative approach emphasizing both top-down country/currency allocation and bottom-up security selection decisions to generate excess returns. AQR's investment philosophy is based on the fundamental concepts of value and momentum. AQR's international equity product incorporates stock selection, country selection, and currency selection models as the primary alpha sources. Dynamic strategy allocation (between the three primary alpha sources) and style weighting are employed as secondary alpha sources.

PYRAMIS GLOBAL ADVISORS TRUST COMPANY (Semi-Passive) Periods Ending June, 2014

Portfolio Manager: Cesar Hernandez Assets Under Management: \$545,626,328

Investment Philosophy

Pyramis' Select International strategy combines active stock selection with quantitative risk control to provide consistent excess returns above the benchmartk while minimizing relative volatility and risk. By combining five regional sub-portfolios in the U.K., Canada, Continental Europe, Japan, and the Pacific Basin ex Japan, the portfolio manager produces a portfolio made up of the best ideas of the firm's research analysts. Each regional portfolio is created so that stock selection is the largest contributor to active return while systematic, sector, and factor risks are minimized. The portfolio manager uses a combination of proprietary and thirdparty optimization models to monitor and control risk within each regional module. Resulting portfolios typically contain between 275 and 325 holdings.

PYRAMIS GLOBAL ADVISORS TRUST CO. - SELECT INTL Rolling Five Year Returns Compared to Benchmark

STATE STREET GLOBAL ADVISORS (Semi-Passive) Periods Ending June, 2014

Portfolio Manager: Adel Daghmouri Assets Under Management: \$334,230,875

Investment Philosophy

SSgA's Alpha strategy is managed using a quantitative process. Stock selection provides the best opportunity to add consistent value. Industry factors have come to dominate country factors and an approach that uses industry weights to add incremental value complements stock selection. Unwanted biases are controlled through disciplined risk-control techniques. Country and regional allocations are a result of the security selection process but are managed to remain with +/- 5% of the benchmarks allocation. Sector and industry allocations are managed to be within +/- 3% of the benchmarks allocation. The portfolio managers on this team have extensive experience and insight, which is used in conjunction with the models to create core portfolios.

Staff Comments

There have been changes to the investment team recently and shortly after inception of the account. In addition, significant changes are being made to the investment process. The SBI is monitoring this strategy closely due to these changes and to the portfolio's recent underperformance.

STATE STREET GLOBAL ADVISORS - ALPHA Rolling Five Year Returns Compared to Benchmark

STATE STREET GLOBAL ADVISORS (Passive Developed Markets) Periods Ending June, 2014

Portfolio Manager: Lynn Blake

Assets Under Management: \$3,780,754,871

Investment Philosophy

State Street Global Advisors (SSgA) passively manages the portfolio against the Morgan Stanley Capital International (MSCI) World ex U.S. index of 23 markets located in the developed markets outside of the United States (including Canada). SSgA fully replicates the index whenever possible because it results in lower turnover, higher tracking accuracy and lower market impact costs. The MSCI World ex U.S. (net) index reinvests dividends assuming a withholding tax on dividends, according to the Luxembourg tax rate. Whereas the portfolio reinvests dividends using all available reclaims and tax credits available to a U.S. pension fund, which should result in modest positive tracking error, over time.

GE ASSET MANAGEMENT INC. - Assigned Risk Plan Periods Ending June, 2014

Portfolio Manager: Dave Carlson

Assets Under Management: \$59,978,969

Investment Philosophy Assigned Risk Plan

GE's Multi-Style Equity program attempts to outperform the S&P 500 consistently while controlling overall portfolio risk through a multiple manager approach. A value portfolio, a growth portfolio and a research portfolio are combined to create a well diversified equity portfolio while maintaining low relative volatility and a style-neutral position between growth and value. All GE managers focus on stock selection from a bottom-up perspective.

RBC GLOBAL ASSET MANAGEMENT (U.S.) INC. - Assigned Risk Plan Periods Ending June, 2014

Portfolio Manager: Brian Svendahl

Assets Under Management: \$241,920,355

Investment Philosophy Assigned Risk Plan

RBC uses a top-down approach to fixed income investing. Their objective is to obtain superior long-term investment returns over a pre-determined benchmark that reflects the quality constraints and risk tolerance of the Assigned Risk Plan. Due to the specific liability requirement of the plan, return enhancement will focus on sector analysis and security selection. Yield curve and duration analysis are secondary considerations.

GALLIARD CAPITAL MANAGEMENT, INC. Periods Ending June, 2014

Portfolio Manager: Karl Tourville

Assets Under Management: \$1,549,256,562

Investment Philosophy

Galliard Capital Management manages the Fixed Interest Account in the Supplemental Investment Fund. The stable value fund is managed to protect principal and provide competitive interest rates using instruments somewhat longer than typically found in money market-type accounts. The manager invests cash flows to optimize yields. The manager invests in high quality fixed income securities and investment contracts with U.S. and non-U.S. financial institutions. To maintain necessary liquidity, the manager invests a portion of the portfolio in its Stable Return Fund and in cash equivalents. The Stable Return Fund is a large, daily priced fund consisting of a wide range of stable value instruments that is available to retirement plans of all sizes.

This fund attempts to provide investment results, before fund expenses, that parallel the performance of the Standard & Poor's 500 Index. The fund invests in all 500 stocks listed in the S&P 500 index in approximately the same proportions as they are represented in the index. The managers have tracked the S&P 500's performance with a high degree of accuracy. The fund may use futures and options for temporary purposes, but generally remains fully invested in common stock.

The fund employs a "passive management"- or indexing-investment approach designed to track the performance of the MSCI US Mid Cap 450 Index, a broadly diversified index of stocks of medium-size U.S. companies. The fund attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting within the index.

Staff Comments

The strategy of this fund is to invest primarily in stocks of small to medium-sized companies that are believed to offer either superior earnings growth or appear undervalued. The fund normally invests at least 80% of assets in equities of small companies in the Russell 2000 or S&P Small-Cap 600. The manager does not favor making big bets on any particular sector or any particular stock. The fund's combination of growth and value stocks offers investors relatively more stable performance compared to other small cap stock funds.

The objective of this fund is a high and stable rate of current income with capital appreciation being a secondary consideration. This portfolio is invested primarily in intermediate term, investment-grade quality corporate and mortgage bonds and, to a lesser extent, government issues. While the fund invests primarily in the U.S. bond market, it may invest a small portion of assets in dollar-denominated foreign securities. The duration of the portfolio is kept near that of the bond market as a whole.

The fund attempts to track the performance of the Barclays Capital Aggregate Bond Index, which is a widely recognized measure of the entire taxable U.S. bond market. The index consists of more than 7,800 U.S. Treasury, federal agency, mortgage-backed, and investment-grade corporate securities. Because it is not practical or cost-effective to own every security in the index, the fund invests in a large sampling that matches key characteristics of the index (such as market-sector weightings, coupon interest rates, credit quality, and maturity). To boost returns, the fund holds a higher percentage than the index in short-term, investment-grade corporate bonds and a lower percentage in short-term Treasury securities.

The goal of this fund is capital appreciation by investing in securities of companies located outside of the United States. While the fund invests primarily in stocks, it may also invest in bonds. Most investments are made in companies that have a market capitalization of \$100 million or more and which are located in developed countries. To select the securities, the manager uses fundamental analysis of companies supplemented by relevant economic and regulatory factors and computer-aided quantitative analysis. The manager rarely invests in currency to protect the account from exchange fluctuations.

The most important factor in determining the asset allocation mix is the time horizon of each fund. Funds with longer time horizons are assigned initial risk and return objectives which reflect the need to outpace inflation, the ability to take on more short-term volatility, and a reduced need for regular income. This results in larger starting equity allocations. Funds with shorter time horizons are assigned risk and return objectives that reflect a lower tolerance for volatility and an increased need for regular income, and therefore lower equity allocations.

The broad equity/fixed allocations are driven by the risk and return objectives for each fund. In determining the mix, the following factors are considered:

- The time horizon of each fund, which translates into a specific risk/return objective.
- SSgA current capital market assumptions and their impact on the forward looking risk/return of the portfolio.
- The need to differentiate the risk/return profiles for each portfolio so as to offer distinctly different options for plan participants.

INVESTMENT ADVISORY COUNCIL REPORT

DATE:

September 2, 2014

TO:

Members, State Board of Investment

FROM:

Members, Investment Advisory Council

The Investment Advisory Council met on August 19, 2014 to review the following information agenda item:

· Review of current strategy.

No Board action is required.

INFORMATION ITEM:

1) Review of Current Strategy.

To increase overall portfolio diversification, 20% of the Combined Funds is allocated to alternative investments. Alternative investments include real estate, private equity, resource, and yield-oriented investments in which Minnesota State Board of Investment (SBI) participation is limited to commingled funds or other pooled vehicles. Charts summarizing the Board's current commitments are attached (see Attachments A and B).

- a. The real estate investment strategy is to establish and maintain a broadly diversified real estate portfolio comprised of investments that provide overall diversification by property type and location. The main component of this portfolio consists of investments in diversified Real Estate Investment Trusts (REITs) and closed-end commingled funds. The remaining portion of the portfolio may include investments in less diversified, more focused (specialty) commingled funds and REITs.
- b. The private equity investment strategy, which includes leveraged buyouts and venture capital, is to establish and maintain a broadly diversified private equity portfolio comprised of investments that provide diversification by industry type, stage of corporate development and location.

- c. The strategy for resource investments is to establish and maintain a portfolio of resource investment vehicles that provide an inflation hedge and additional diversification. Resource investments will include oil and gas investments, energy service industry investments and other investments that are diversified geographically and by type.
- d. The strategy for yield-oriented investments is to target funds that typically provide a current return and may have an equity component such as subordinated debt or mezzanine investments. Yield-oriented investments will provide diversification by including investments in the private equity, resource and real estate categories.

Notes

None of the data presented herein has been reviewed or approved by either the general partner or investment manager. The performance and valuation data presented herein is not a guarantee or prediction of future results. Ultimately, the actual performance and value of any investment is not known until final liquidation. Because there is no industry-standardized method for valuation or reportingcomparisons of performance and valuation data among different investments is difficult.
